Eleven Vessels Lost in a Gale in Sea Off Northern Japan

MANY PERISHED WHEN JAPANESE STEAMSHIP SANK

Kaitso Maru One of Eleven Craft Wrecked During October Gale in Waters Off Northern Japan; Dispatch Says Numerous Passengers Lost Lives

London, Oct. 18.—A dispatch to The London Evening News from Tokyo says eleven vessels are reported to have been wrecked by a gale in waters off Northern Japan, including the Kaitso Maru, which foundered with "many passengers."

Lloyd's Register lists a steamship Kaitso Maru, of 1,436 tons, Kobe being given as her home port.

CONSERVATIVES TAKE SNOW NOW COVERS UP CONVENTION PLAN MUCH OF MANITOBA

Delegates Meet in Vancouver to Choose Date For B.C. Party Gathering

Wintry Weather Also in Ontario and Northeastern U.S.; Sunny in Saskatchewan

Winnipeg, Oct. 18.—The Winnipeg district, in common with a large part of Manitoba, to-day was blanketed with a heavy coat of snow.

After a Sunday of rain, snow, mild temperatures and high winds, the mercury dropped overnight, and to-day the streets and highways, which yesterday were veritable seas of slush, were frozen over, making the path of pedestrians hazardous and the work of handling traffic in the downtown districts a Winter problem.

COOL WAVE SPREADS
The white blanket is likely to stay for a few days at least, as the forecast this morning reads: "Mostly fair and colder."

Many Saskatchewan districts experienced further rains over the weekend, but this morning it cleared and the sun shone.

Alberta, immune from the bad weather of Sunday, reported cloudy and mild weather to-day.

Jamestown, N.Y., Oct. 18.—The first snowstorm of the season covered the ground here early today. The storm, a light one, began at midnight, ceased after ten minutes and began again at 1 o'clock.

Toronto, Oct. 18.—Toronto experienced its first snow flurry of the season early this morning. The snow gave way to rain later.

J. H. FORTIER IS ILL IN QUEBEC
Quebec, Oct. 18.—At 2 o'clock this afternoon it was announced at St. Luke's Hospital here that the condition of J. H. Fortier, former president of the Canadian Manufacturers' Association, was unchanged.

From an authoritative source in Vancouver came the statement to-day that Dr. Tolmie had not withdrawn his name and if he should be unanimously offered the leadership, it was declared he would accept and retire from the Federal arena.

Vancouver, Oct. 18.—It is expected that between thirty-five and forty of those eligible to attend the meeting of the executive of the Conservative Association of British Columbia which will convene at 4 o'clock to-day will be present when R. L. Maitland opens the gathering, which is to decide the time and place of the party convention.

It is expected the convention will be called for late next month, as it is the intention to have the matter of leadership definitely dealt with before the next session of the Legislature.

The last convention was held in 1922 in Vancouver. This time there is a possibility of the gathering being called for some interior town or on Vancouver Island.

DATE IS PROBLEM
When, where and how the Conservative Party of British Columbia is to hold a convention and select its leader for the next provincial election are to be determined at to-day's meeting.

There are two choices under the first order of business. The meeting will have to determine whether the convention should be held before the Federal Parliament meets about November 7, or if that is considered impracticable, no date sooner than next July can be entertained with assurance that the Federal and provincial members of Parliament will be in attendance. The likeliest time, (Concluded on page 2)

TWO SEATTLE LIQUOR DEATHS
Seattle, Oct. 18.—Deaths of two men, including Bugler Julie T. Vera of the U. S. army unit at Fort Lawton after drinking liquor, were under investigation here to-day.

William M. Smith, a stranger, and Vera died over the week-end in the Seattle city jail. Each was picked up when he collapsed on the street.

MEIGHEN EXPECTED TO MAKE HIS HOME IN CAPITAL OF ONTARIO
Ottawa, Oct. 18.—Right Hon. Arthur Meighen, former Federal Conservative leader, is expected to return to Ottawa to-day from Toronto, where he has been on private business during the last three or four days. Rumors in circulation are to the effect Mr. Meighen will probably reside in Toronto in the future and practice law there.

Auto Fatality in City of Vancouver
Vancouver, Oct. 18.—Thrown to the pavement when the bicycle on which he was riding with another boy was struck by an automobile in South Vancouver on Saturday evening, Earl Goodfellow, twelve, sustained a fracture of the skull which resulted in his death in a hospital here this morning. W. Ryan, driver of the car, was charged with manslaughter.

WILL SEEK RE-ELECTION IN OAK BAY

REEVE HERBERT ANSCORB

SERVICE ON WATER FOR LAKE VICTIMS

Mourners Scatter Flowers Over Scene of Triple Tragedy

An impressive funeral service yesterday ending with the scattering of flowers on the surface of the water in which three men lost their lives marked the closing chapter of the Shawanigan Lake tragedy of August 30.

Search has been abandoned for the bodies of Andrew Lund, thirty-two, Danish logger; Joseph Cameron, forty-three, brakeman; and Harry Bell, twenty-eight, engineer, employees of the Shawanigan Lake Lumber Company, who met death when their boat submerged. With the accident happening at 11 o'clock at night darkness had closed over the lake and they were unable to find their way to shore.

Police and local residents have made a thorough search to recover the bodies but the lake has refused to give up its victims. To accord them proper funeral obsequies a funeral service was held Sunday in the middle of the lake. Relatives of the drowned men, men who had worked with them in the logging camps and many residents of Shawanigan whose feelings were stirred by the tragedy were among the mourners. Many boats and launches were assembled around the main launch from which the funeral service was read.

With bowed heads the unusual assembly heard the solemn words pronounced by Rev. J. S. A. Bastin, of Saanich, and then, with the service over, they moved slowly around the spot where the little craft went down scattering flowers which under ordinary circumstances would have been placed at the graveside.

Ontario Brewing Company Expands

Toronto, Oct. 18.—Announcement was made here last night of the sale by the Estate of Sir William Mackenzie of the Dominion Brewery, Toronto, to the Hamilton Brewing Association, which also operates the Great Springs Brewery. The price is stated to have been \$500,000. The new owners will take over control on November 1.

Man in Vancouver Was Very Ill When Found by Police

Vancouver, Oct. 18.—Weak and unable to speak and lying on a bed that was without a covering, H. Hughes was found by constables who were called by neighbors and forced entry to his house here yesterday at noon.

It was first thought the man was destitute, but investigation disclosed he had \$17 in cash in the house and \$4,375 in a bank. He also was removed to a hospital, where it is stated his condition is serious.

The man is believed to have no relatives here, but a sister is thought to live in Chicago.

New York Magazine Barred by Canada

Ottawa, Oct. 18 (Canadian Press).—"Two Worlds Monthly," published in New York City, has been prohibited importation into Canada as an undesirable publication under the provisions of the Customs Act. Announcement to this effect has been made by the Department of Customs and Excise.

Loot in Robbery In Chicago is Valued at \$33,000

Chicago, Oct. 18.—A gang of more than a dozen yegs early yesterday blew the doors off five safes of the Kellogg Switchboard and Supply Company and escaped with loot estimated at \$33,000 after capturing nine night workmen in the plant. The robbers, employees said, entered the building through a coal chute.

The robbery was discovered when a day watchman found the night men bound and gagged.

MOVES IN CEMETERY DISPUTE AWAITED

Two Shareholders From St. Louis, Mo., to Visit Point Grey This Week

Vancouver, Oct. 18.—New developments in the Valhalla Cemetery dispute in Point Grey will take place within a day or two with the arrival of two of the cemetery promoters from St. Louis, Missouri, George McLoney and Frederick Grimham of that city, together with two associates, hold a two-thirds interest in the company, while W. Starr West of this city holds one-third, being the largest individual shareholder.

New developments over the week-end were the receipt by Mr. West of a formal acknowledgment from J. Cathcart, superintendent of lands, of the receipt at Victoria of Mr. West's letter of protest.

"The Minister of Lands directs me to state he has no reply to make to your letter," wrote Mr. Cathcart.

SPEAKS OF LAWSUIT
"It just seems as if the Government were trying to force us into a lawsuit," said Mr. West, referring to a published statement which emanated from the Lands Department last week to the effect that the eighty acres in West Point Grey had been sold to the cemetery purpose only and could not be used for anything else.

WORK SUSPENDED
Work on the cemetery site had continued until last Saturday, when the men were paid off, stated Mr. West, who said he was unwilling to take further chances upon spending the \$25,000 which would be necessary to put the site in shape for a graveyard until he had received further legal advice.

His present advice was to the effect the company could proceed to develop the site as a cemetery and the Government could not legally interfere.

OAK BAY REEVE WILL SUBMIT HIS NAME TO VOTERS

Reeve Herbert Anscorb Has Decided to Seek Final Term in Oak Bay

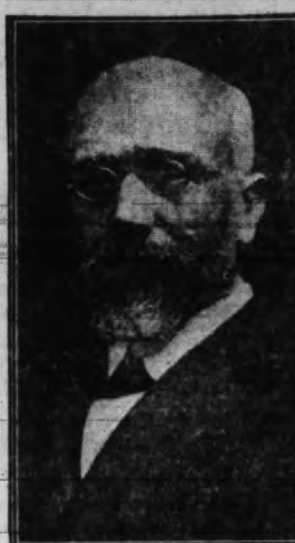

Oak Bay Completing Year of Steady Growth With Much Building Activity

Reeve Herbert Anscorb will stand for re-election in Oak Bay. In an informal announcement to his colleagues on the Oak Bay Council shortly before he left on a business trip to Northern B.C., the Reeve made it clear that he would be again in the field for the 1927 elections in that municipality.

Reeve Anscorb denied a report that he might contest the majority in Victoria in the December elections, and intimated that it was his intention of seeking a final term in Oak Bay. If the electorate of that municipality were satisfied with his stewardship and had confidence in the present administration in Oak Bay.

The Reeve said at that time that while there were no outstanding issues in Oak Bay to go before the electorate in the January contests, he (Concluded on page 2)

WITHDRAWS FROM POLITICS IN GREECE; E. VENIZELOS

Athens, Oct. 18.—Former Premier Venizelos has issued a manifesto to the Greek people announcing his definite withdrawal from political life. He declares he will not accept the presidency or a seat in the Chamber of Deputies, but only a place on a future non-political council of state and temporary diplomatic missions abroad. There is to be a general election soon in Greece.

KING AND OTHER PREMIERS OF EMPIRE ARE IN LONDON FOR CONFERENCE STARTING TO-MORROW

London, Oct. 18.—Premier King, accompanied by Hon. Ernest Lapointe as his chief adviser, is in London to-day. Prepared to attend the opening of the Imperial Conference to-morrow, the Canadian leader arrived yesterday and joined the group of Empire Premiers already here for the gathering, including Premier Bruce of Australia, Premier Hertzog of South Africa and Premier Coates of New Zealand.

London, Oct. 18 (Cable From George Hamblin, Staff Correspondent of the Canadian Press).—"Canada is planning a new trade treaty with South Africa. As he arrived at Liverpool aboard the liner Megantic yesterday for the Imperial Conference, Premier King announced it was the intention of his Government to proceed with negotiations toward that end.

After mentioning the agreements with Australia and the West Indies the Premier said:

"We hope to extend still further inter-imperial trade."

MANY QUESTIONS
Mr. King had prepared a press statement, but interviewers asked numerous questions apart from that. Answering questions about the recent Canadian general election, Premier King said the result had not surprised him. It had been most satisfactory.

"It means we have a good working majority and the country is satisfied," Mr. King said.

TRADE GROWING
In his prepared press statement Premier King reviewed Canada's trade position, adding:

"All indications seem to show our business barometer is set at fair."

He added that the improvement in economic conditions, particularly in the relative level prices of farm products, was making it possible to absorb a steadily growing number of settlers.

TO EXCHANGE OPINIONS
On the Imperial Conference the statement observed:

"The conference is essentially a clearing house for opinions; an opportunity for coming to realize adequately the personal factors and special problems in the government of all the nations of the Empire. I have no doubt we shall come away with a better understanding of these special problems, a fuller recognition of the traditions and standards which we of the community of British nations share and a common and clearer perception of the principles and policies best adapted to ensure effective co-operation."

Immediately after landing Premier King, Hon. Ernest Lapointe and the other members of the party visited the Liverpool Cathedral. At the Lime Street station, Lord Mayor Sowerby, (Concluded on page 2)

GIRL BYSTANDER AND VEHICLE OCCUPANTS INJURED IN SMASH

Automobile Leaps Curb and Plunges Through Downtown Store Window; Marjorie Dixon, Ten-year-old Girl, Sustains Broken Leg and Cuts; Mr. and Mrs. Joseph Hunter, Occupants of Car, Hurt in Mishap; Motorists Had Miraculous Escape on the Malahat Highway

When Mrs. Joseph Hunter temporarily lost control of an automobile she was driving yesterday afternoon, the machine lurched around the 'dummy policeman' at the corner of Fort and Government Streets, took a sudden twist, mounted the curb and crashed into the window of the Irish Linen Store on Government Street, pinning a little girl there between the car and the glass and injuring her seriously. This little girl, Marjorie Dixon, of 643 Niagara Street, ten years of age, lies in St. Joseph's Hospital to-day with a broken leg and various cuts and bruises, but Dr. J. D. Hunter stated her condition was improved this morning. Mrs. Hunter, the driver of the car, has a broken nose, and is suffering from shock. Mr. Hunter, her husband, and a passenger in the machine, had a fractured hip and other injuries and also suffers from shock.

Police have details of the accident. Witnesses declare that when Mrs. Hunter came to the Fort Street intersection she seemed to lose control of the car. Apparently, she stepped on the accelerator instead of the brake. The automobile crossed the curb and plunged through a tile pillar, catching up little Marjorie Dixon, who was looking in the store window with her mother. The child was showered with glass and will carry scars on her face which will mark her for life, according to Dr. Hermann Robertson, who attended her. Her right leg is broken above the knee.

Mrs. Hunter, who is suffering from a broken hip, is in a serious condition, but not in danger. Her injuries, which are painful, may keep her confined for some time. A broken hip, according to medical men, is something which can only be treated successfully with care and time.

Mrs. Hunter escaped most lightly, although she is severely cut and has a fractured nose. She was progressing well to-day.

B. Seymour, owner of the automobile Mrs. Hunter was driving, reported the accident to the police yesterday. Mrs. Hunter had been intending to purchase a new car, and for some weeks had been getting experience by driving the machine belonging to Mr. Seymour. Previous to that she had driven a touring car.

LIGHTS CAUSE CRASH
Mr. and Mrs. A. H. Adams, 1315 Yates Street, and their son Bethel, had a miraculous escape from death when the automobile in which they were riding, a Ford sedan, crashed over the Malahat at a point two miles north of Hamsterley Malahat last night. Mr. Adams is unable to walk to-day as a result of the accident, a tendon at the back of his neck having been severed.

The other members of the party escaped with severe bruises, but suffer from shock. A large tree which checked the impetuosity of the car, saved the party from falling several hundred feet, a straight drop, probably to their deaths. Bethel Adams, who was driving the car, stated that the failure of an approaching driver to dim his lights was the cause of the accident.

The party left the city at 7 o'clock last evening, bound for Duncan to visit a relative. When approaching a turn in the road a few miles past the summit, the driver, Bethel, was blinded by the bright lights of an automobile that came suddenly around a turn. As a result of this the driver was unable to see the turn and drove straight over the bank, the car turned over twice, jumping rocks and boulders before it finally came to rest against a tree forty feet below the road with only one window smashed. The party extricated themselves from the wrecked machine and climbed back to the road. Assistance was brought from Hamsterley Malahat by the driver of the other car and the party proceeded to the city.

BOND FRAUDS LEAD TO FIVE ARRESTS
Savings Company in Pittsburgh Closed up; Police Search For C. Knapp

Pittsburgh, Pa., Oct. 18.—Five persons are under arrest as a result of Pittsburgh's half-million-dollar bond fraud and detectives have been sent to Detroit and Buffalo in an effort to apprehend Charles Knapp, who disappeared Friday with between \$25,000 and \$425,000, part of which belonged to the Brotherhood Savings and Trust Company, a labor institution.

The fifth arrest was that of Frank Smith, alias Frank Guarniro of Pittsburgh. Police said the man's real name was Guarniro and that he was wanted at Clearfield, Pa., for a \$4,500 stock swindle which he and Knapp were alleged to have perpetrated last Spring.

Search for Knapp was started after the bank had been closed and its affairs taken over by the Pennsylvania State Banking Department and four persons had been arrested.

LORD ELGIN UNABLE TO SPEAK IN CITY
Word was received in the city this morning to the effect that owing to his recent throat affection, Lord Elgin will be unable to fulfill any speaking engagements in Victoria. Lord Elgin is touring Canada and was to have spoken here under the auspices of the National Council of Education.

A ceremony by the Concatenated Order of Hoo Hoo, to be held in the Hotel Vancouver on the evening of October 23, will be preceded by a banquet at 6.30.

Loggers to Meet In Terminal City
Vancouver, Oct. 18.—More than 2,000 delegates, representing the logging industry on the Pacific Coast of Canada and the United States will assemble in Vancouver next week to attend the Pacific Loggers' Congress, which will be held here for the four days, October 27 to October 30.

The discussions will embrace all the varied phases of the industry, including demonstrations of equipment, which will be one of the features of the congress.

ARRESTS FOLLOW QUEBEC VIOLENCE
Montreal, Oct. 18.—Three men were arrested at Lac Superior to-day in connection with the hunt for the desperadoes who entered the Summer home of Major Thomas Robby of Montreal yesterday and who shot Arthur Dubé, a member of a posse hunting them, in the leg.

GUARD NOW PROTECTS U.S. PRESIDENT'S SON

Secret Service Man Stays With John Coolidge at Amherst College

Believed Receipt of Threatening Letters Caused Officials to Act

Amherst, Mass., Oct. 18.—Why John Coolidge, Amherst College student and son of the President of the United States, is being guarded by Colonel Edward W. Starling of the secret service remained a mystery to-day.

"I have no idea," young Coolidge told inquirers, while in other quarters the opinion was expressed that the threatening letters received by the President or his son were responsible for Starling's presence.

Col. Starling lives with the President's son and is with him constantly except at classes.

Information from Washington was that Starling's orders had been issued under the general policy of the secret service department, which is charged by law with the protection of the President and the members of his family.

Young Coolidge has been under guard since the opening of the Fall term.

It was revealed the letters received were believed to be from a harmless crank, but it was considered prudent to take every precaution against any possible attempt to harm the President's son.

BLUENOSE LED IN NOVA SCOTIA RACE

To-day's Contest With Haliogonian Not in Time Limit; Third Race Needed

Halifax, Oct. 18 (Canadian Press).—The schooner Bluenose, Captain Angus Walters, defeated the schooner Haliogonian, Captain Moyle Crouse, in the second race of a series to decide the championship of the Nova Scotia fishing fleet here to-day, but failed to finish within the time limit of five hours and a third race will have to be sailed.

The schooners raced to-day in a breeze averaging twenty knots with a moderate swell, but the wind hauled to the North as the vessels approached the mouth of the harbor, and when the time limit expired the Bluenose was five minutes from the line. It was proposed at a meeting of the sailing committee last night that the time limit should be extended to five and a half hours, but this was voted down.

BALLAST CHANGED
Bluenose gained eight minutes on the first three legs of the course, Haliogonian, with a new ballast trim, was faster to-day than on Saturday on the wind, but slower on leeward work. Captain Ben Pine, skipper of the United States champion schooner Columbia, who was a guest aboard the press boat, expressed the opinion Bluenose was faster than ever and would make a wonderful race with Columbia if an international series were arranged.

ARRESTS FOLLOW QUEBEC VIOLENCE
Montreal, Oct. 18.—Three men were arrested at Lac Superior to-day in connection with the hunt for the desperadoes who entered the Summer home of Major Thomas Robby of Montreal yesterday and who shot Arthur Dubé, a member of a posse hunting them, in the leg.

The Promise You Made

You promised to endow her with all your worldly goods.
But if you should go first, will that promise hold good?

You can make it good if you make a Will and appoint this institution as your executor and trustee. Nothing can then happen to your estate, for our modern facilities and long experience in managing estates can keep things running right.

A talk with our officers regarding your estate may prove to be worth many hundreds of dollars to your dependents.

CAROL EXPECTED TO RETURN TO RUMANIA

Believed He Will be Given Back His Rights as Crown Prince

Paris, Oct. 18.—Prince Carol of Rumania, who soon may find himself once more the heir apparent to the throne of his father, on Saturday celebrated his thirty-third birthday at his temporary home in Neuchâtel. The anniversary, which was observed quietly, was cheered by the receipt of telegrams from his family in Bucharest, and many sympathizers among the younger political element in Rumania, but above all by a wireless message from his mother, Queen Marie, voyaging to the United States aboard the Ss. Leviathan.

"Carol is playing a watchful, waiting game," say those Rumanians in Paris who are cognizant of his plans regarding his possible restoration as crown prince and a member of the regency. Beyond a visit last Friday to the automobile show in the company of Mme. Lupescu, the "errant" young prince has made no public appearance since his dramatic farewell to his mother early last week, when she departed for the United States.

Carol and Mme. Lupescu have been living in the quiet suburb of Neuchâtel in an unostentatious villa. Occasionally they go out driving, but the days of his open flaunting of their mutual attachment in the dancing resorts of Montemarie and the Champs Elysees are over, at least for the time being. **PREMIER TO VISIT HIM**

News that Former Premier Bratianu is coming to Paris to fix up the situation and to restore Carol to his rights as crown prince seems to have brought Queen Marie's eldest son to a realization that too flagrant indiscretions now might be hazardous.

The prince, it is understood, has been given the hint that his relations with Mme. Lupescu may be continued, even winked at if conducted in a discreet manner. The main thing that the Rumanian Government wants to know is what line of politics he intends to adopt. A member of the royal family and in line for succession to the throne. What his answer will be on this matter is something Carol is keeping secret until Former Premier Bratianu visits him.

Rumanian newspapers are paying considerable attention to the possibility that Prince Carol may again be given his rights as Crown Prince despite his most recent escapade with Mme. Lupescu. A large section of the press expects this will be done shortly after Parliament reconvenes on November 14. To a great extent Carol's reconciliation with his mother in Paris is responsible for the belief he will shortly be restored to favor. The newspaper Adevărul says Former Premier Bratianu is going to Paris to see Carol "in the role of peacemaker." The new National Tarranist Party, which strongly favors Carol, is increasing in power and is declared Premier Averescu is now alarmed by the possibility of the overthrow of his Cabinet.

MANY ACCIDENTS IN TERMINAL CITY

Fifty Traffic Smashes Over Week-end; One Man Critically Injured

Vancouver, Oct. 18.—Ten persons were injured, one critically, in more than fifty traffic accidents reported to the Greater Vancouver police over the week-end. In addition to personal injuries, a large amount of material damage to both automobiles and street cars was incurred.

"Peaches" Browning Wants Court to Appoint Guardian

New York, Oct. 18.—Mrs. Frances Heenan (Peaches) Browning, through her counsel, to-day asked the Supreme Court to appoint her mother as her guardian for the purpose of suing her wealthy husband, Edward W. Browning, for separation.

MANY POLITICAL RUMORS IN ONTARIO

Toronto, Oct. 18.—The Toronto Globe this morning said: "It was a week-end of sizzling speculation in Toronto Conservative circles and all kinds of rumors regarding developments at Queen's Park went the rounds."

"One report, of which considerable credence seemed to be given, was that the Attorney-General, Hon. W. F. Nickle, was decidedly out of accord with the decision of the Ferguson Conservative Government of Ontario to adopt a 'wet' policy and was likely to be asked to lead the 'dry' adherents of the party in the expected provincial general election campaign and in the next Legislature."

No More Piles

Thousands Bless Dr. Leonhardt, the Physician, Who Discovered This Common Sense Remedy
If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the new treatment known as Dr. Leonhardt's HEM-ROID.

This Doctor's treatment is internal. By experimenting for years he discovered the exact cause of piles and then went further and compounded a remedy that would remove the cause.

Dr. Leonhardt wants every sufferer to benefit by his discovery and so that there will be no doubting or delay—MacQuarrie Drug Company and all druggists are authorized to sell HEM-ROID with guarantee that it will do as stated or money back. On that honorable basis every sufferer should secure a package of Dr. Leonhardt's HEM-ROID to-day. (Adv.)

TIDAL ACTION ON OAK BAY SHORELINE THREATENS ROAD

Oak Bay Council to Make Early Start on Plan to Arrest Corrosion; Sea Eating Into Present Road-bed at Rate of Nine Inches a Year, It Is Stated

Action to arrest the action of the sea, which is eating into the shoreline of the southern section of Oak Bay at the rate of nine to ten inches a year, will be taken shortly by the Oak Bay Council, it is learned, out of funds provided in the estimates at the first of the year.

Of a vote of \$5,000 set aside for a start on the project of arresting the corrosion of the shoreline this year, the sum of \$3,000 will be expended in the first stage of the work. This is to be undertaken shortly as a measure of winter work for outside employees of the corporation in the slack season.

The proposals contemplate the quarrying of considerable quantities of rock which will be dumped to seaward of the shoreline at the southern extremity of Oak Bay between Windsor Road and Oak Bay Avenue. It is here that the ceaseless fretting of the sea has worn down the embankment and encroached at some places on the road to a distance of over twenty feet. The road is nominally sixty feet in width, but in places has been reduced to under forty feet by the tidal action. **SEWER MAINS THREATENED**

The problem is one that first manifested itself to municipal attention when it threatened to expose an important main sewer, under the roadway, and the rate of corrosion has been carefully watched. In 1921 the shoreline was established at a point considerably to the north of the present line, and the consumption due to tidal action has been more or less steadily maintained at the rate of over nine inches a year.

Some opposition was given to the proposal at the first of the year before the plans of the council, on the advice of its engineer, were more fully explained. The present work projected will supply a rough filling of broken stone to act as a break against the action of the sea. The rock will be quarried by Oak Bay from its own property and by its own employees, under R. Fowler, municipal engineer.

The portion of the work done this year will be permanent in the sense that it will have the effect of stopping further corrosion at this point, and will serve as a base for further development if the municipality decides in later years to place a more ambitious defence at the site. No pier-work or wall is entertained at this time.

Funds for the purpose were included in the estimates in January, but the actual cost of the project this year will be accomplished well within the figure named.

The experience of Oak Bay in regard to the fretting of tidal action is that felt by the city in other years and which necessitated the embankment along Ross Bay where serious corrosion threatened the cemetery at that site.

V.O.N. DOING FINE WELFARE WORK HERE

Three Local Nurses Paid 813 Visits Last Month, Half of Them Free

With the growth of public interest in child welfare in all its phases, attention is being focussed on an organization which is one of the most vital factors in child welfare in Canada—the Victorian Order of Nurses. Few citizens seem to realize that for years this wonderful public health organization has been carrying on a work of practical nursing and education, which has been instrumental in saving untold babies and mothers for Canada.

Its three blue-uniformed nurses in the course of their work in Victoria last month were on duty ten hours each week-day and five on Sundays. During that time they paid 813 visits, of which 370 were nursing visits, 134 child welfare, 28 pre-natal and 30 post-natal, 12 social service 37 instructive (including tubercular), 8 night visits (including 2 confidential), 5 well-baby clinics were attended. Of these visits 443 were free, including 2 confinements.

The local board wishes to thank Mrs. Macdonald and Mrs. Cameron for children's clothing; Mrs. Mullion, baby's clothing; Mrs. Carmichael and Mrs. O'Brien, old linen, and Mrs. Gregory for a child's high chair.

TWO AUTO FATALITIES

Calexico, Cal., Oct. 18.—Mrs. A. L. Dean, sixty-seven, of this city, and Robert Curt, her grandson, aged three, of Orange, died yesterday as the result of an explosion of gasoline which enveloped their automobile in flames at a filling station.

CYCLIST KILLED

Winnipeg, Oct. 18.—Ivar Hjartarson, forty-three, was fatally injured here when his bicycle was struck by an automobile Saturday night. The driver of the car swerved to avoid another vehicle.

Dean to Lecture—In commemoration of Trafalgar Day, October 21, a lecture will be given by Rev. Dean Quainton in the hall of the Connaught Seamen's Institute, Superior Street. The subject of the lecture will be "The Humor and Pathos of a Parson's Life," and there will be patriotic songs before and after the lecture. The proceeds are to be devoted to the funds of the Connaught Seamen's Institute. Tickets may be had from members of the Victoria Branch Ladies' Guild for Sailors.

Polish Protest in City of Edmonton

Edmonton, Oct. 18.—At a mass meeting attended by over 1,000 citizens here last night a resolution was passed protesting against allegedly harsh treatment of political prisoners in Poland by the present and previous governments of that country.

EXECUTIONS IN RUSSIA

Balta, Oct. 15.—Three Russians, one of them a woman, were shot yesterday for alleged espionage in behalf of Rumania. It was charged they had systematically given information to the Rumanian War Office respecting the location of Red Army forces.

OAK BAY REEVE WILL SUBMIT HIS NAME TO VOTERS

(Continued from page 1)

hoped to be permitted to further develop undertakings begun in the course of the present term.

Outstanding in this, the Reeve limited, was the Oak Bay-Victoria water rate controversy, in which Oak Bay had taken a firm stand for a revision of rates in regard to the essential supply. An assurance of a reasonable supply of water at a fair rate was a vital factor to the municipality, he continued, and a necessity for the further growth and development of the municipality.

SHOWS STEADY GROWTH

One of the first British Columbia municipalities to recover from the effects of wartime depression, Oak Bay is closing a year of steady, consistent growth, it is stated. The tax rate cut from 21.9 to 21 mills on

virtually the same assessment at the first of the year. The net levy for general purposes in 1926 is \$122,523, compared with \$147,091 last year.

Despite the ten per cent. cut in the rates made at the first of the year, collections have shown a steady improvement, with total receipts for the nine months placed at \$220,945, or within \$11,000 of the estimate for the entire year. A conservative estimate of the balance to be received places this at \$25,000, showing a higher percentage of collections than was anticipated.

BUILDING FIGURES UP
Building figures in Oak Bay for the last nine months formed one of the surprises of the year, with no less than fifty-five new dwellings of over the value of \$2,000 each being constructed to date. The value of building work done in the district in the three-quarter year period has been \$256,000, compared with \$156,000 in the same time last year, or an increase of \$100,000, exclusive of the Fall building programme.

Due to the steady movement in Oak Bay real estate the payment of arrears of taxes have run over the estimates for the year by nearly 30 per cent., reaching \$9,000 already, compared with \$6,500 expected for the entire year.

At the first of the year Oak Bay eliminated its horse-drawn method of garbage collection, and by the innovation, reducing its outside staff by three employees by the innovation.

INCREASE IN SCHOOLS
Indicative of the quiet and steady growth of the district, school attendance has again been increased, and Oak Bay schools are operating at their fullest capacity.

Credit for the notable progress made during the year is accorded by the Reeve to the policies initiated by former administrations and maintained in the last few years with growing success. It was three years ago Oak Bay made its first levy on the basis of one-quarter of their assessed value.

Council committees in Oak Bay this year have been confined to the two standing committees, with other bodies appointed as the necessity arose. Councillors E. C. Hayward, chairman, W. H. McFarlane, and Money composed the finance committee, and Councillors T. Ashe, chairman, A. D. Crease and T. J. Goodlake, the works committee.

TOLMIE IS TOLD TO KEEP OUT OF LOCAL LEADERSHIP FIGHT

Victoria Member Warned by Tory Organ to Stay at Ottawa Where He Belongs

Early Convention Demanded; Stevens Also Urged Not to Come West

British Columbia Conservatives who are working for the election of Hon. S. F. Tolmie or almost anyone to the provincial leadership so long as it is not W. J. Bowser, K.C., received another jolt yesterday when The Colonist, leading Conservative organ, came out with a flat warning to the Victoria Member of Parliament to leave provincial politics severely alone.

Coupled with this warning The Colonist asks the Conservative meeting under way in Vancouver to-day to arrange for a convention of the party before the end of this year and not allow this event to be delayed any longer.

BOWSER FAVORED
As The Colonist also warns Hon. H. H. Stevens, of Vancouver, to stay in Ottawa and keep out of provincial affairs, it was assumed on all sides that the paper is favorable to the return of Mr. Bowser to the leadership.

URGE CONVENTION
"It seems logical to say that without a provincial convention and the laying down of a definite platform for the party, there can be no efficient organization," says The Colonist. "The doubt that exists about the permanent leadership should be dispelled. Until three points are decided, namely, those affecting organization, leadership and a platform, the Provincial Conservative Party is marking time and no political party to remain in for any length of time. All rumors in respect to these matters will be set at rest by the holding of a party convention, and, with organization, a platform and leadership definitely known, a fillip will be given to the enthusiasm within the ranks of the Conservatives of the Province."

TOLMIE'S POSITION
"In view of the likelihood of a convention being held a few remarks seem pertinent. The name of Dr. S. F. Tolmie, the Federal member for Victoria, is being mentioned as likely to go before a convention when nominations are being made for leadership. Another name mentioned is that of Mr. H. H. Stevens, the Federal member for Vancouver Centre. We are persuaded that neither of these two gentlemen will feel that he can conscientiously leave the Federal field. Both received substantial endorsement for Federal membership on September 14 last. They are in the first rank of the Conservative members at Ottawa, were Cabinet Ministers in the late Meighen Government and they are needed at Ottawa because they add strength to the Opposition. The need of the presence of both of them there becomes enhanced with the knowledge that Mr. Arthur Meighen has resigned the post of leader of the Conservative Party and has been succeeded by Mr. Hugh Guthrie, who will lead the Opposition in the House of Commons."

MUST STAY IN OTTAWA
"In the circumstances besetting the Federal Conservative Party we feel assured that both Dr. Tolmie and Mr. Stevens, out of a spirit of loyalty, will decide that they remain true to the task for which they have been elected. It may be remarked incidentally that Dr. Tolmie, to the best of our belief, has more than once refused to allow his name to go up for nomination for Provincial leadership at a convention. Much as this newspaper and

NEW PACIFIC CABLE WILL BE FASTEST AND LONGEST IN WORLD, OFFICIAL STATES

C. Berner, of Telegraph Construction and Maintenance Company, Who Will Supervise Laying of the New Cable, Arrived Here This Morning Aboard Cable-ship Dominia; Says New Cable Will Be Able to Transmit 2,500 Letters Per Minute

"In addition to being the longest cable in the world it will be the fastest," declared C. Berner, representative of the Telegraph Construction and Maintenance Company, who arrived in Victoria this morning from London aboard the cableship Dominia. Mr. Berner is in complete charge of the expedition and will personally supervise the laying of the new Pacific cable from Banfield to Fanning Island. "The new cable from Banfield to Australia will be able to transmit 2,500 letters per minute," the official stated. Mr. Berner has been with the present company for the past twenty-five years.

He is not new to this Coast, having visited Banfield when the first Pacific cable was laid. Another member of the Dominia staff, J. A. Downes, head of the electrical staff, was also present when the first cable was laid. These two officials were junior officers on board the cableship Dominia, which laid the first cable from Banfield to within two miles of Fanning Island.

In speaking of the two ships, the Colonist and Dominia, Mr. Berner told an interesting story of how the names for these two ships were selected. The Colonist, which was built by the Telegraph Construction and Maintenance Company especially for the job of laying the first Pacific cable, derived her name from the fact that the cable belonged to the colonies. When the time came for the laying of the second Pacific cable, which was still longer, this English company found it necessary to construct another ship especially for the job. When the subject of selecting a name for her was brought up the directors decided that as there were no more colonies but only Dominions left they would call her the Dominia.

When the first Pacific cable was laid the Telegraph Construction and Maintenance Company, which manufactures and lays cables, received the contract to lay the whole of the cable from Banfield to the Fiji Islands, but this time they are only laying the portion from Banfield to Fanning Island.

KING AND OTHER PREMIERS OF EMPIRE ARE IN LONDON FOR CONFERENCE STARTING TO-MORROW

(Continued from page 1)

wearing his chain of office, bade them farewell.

PARTY WELCOMED

On their arrival in London the party was welcomed by Lieut.-Col. L. C. Amery, Secretary of State for Dominion Affairs; Col. B. V. B. Desai, ceremonial secretary in the Office of Dominion Affairs; Viscount Byng, former Governor-General of Canada; Sir Hamar Greenwood, Lord Clarendon, Under-Secretary of State for Dominion Affairs; Premier L. A. Taschereau of Quebec, Hon. Vincent Massey, Canadian Minister-Designate to the United States, and a considerable number of the Canadian colony in London.

Premier King spent his first Sunday evening in London in attendance at the Westminster Abbey service, and was accompanied by Hon. P. C. Larkin, Canadian High Commissioner in London.

CONSERVATIVES TAKE UP CONVENTION PLAN

(Continued from page 1)

It has been gathered from leading Conservatives, is between November 15 and 25.

Victoria and Kamloops Conservatives have both asked that the convention be held in their cities. While the Vancouver Conservatives Association has issued no such invitation, however, there is a strong belief that the largest city in the Province will be selected.

FINANCE QUESTION

The meeting will also have to consider the question of financing. In the past some conventions have been financed by each delegation paying its own bill. At the last convention, however, the expenses were pooled. Each delegate paid \$20 into a pool and withdrew from it later the cost of his transportation. There are strong arguments pro and con and the committee will have to face this issue. The question of location and financing are intermingled to some extent, for if the convention is held here almost half the delegates from the lower mainland would have little or no transportation expenses.

It is possible that after deciding the date to-day's meeting may refer some of these questions to committees for fuller consideration.

DELEGATES ARRIVED
Among those entitled to attend to-day's meeting are W. J. Bowser, K.C., leader of the party; R. H. Pooley, M.P.P., representing the members of the Legislature, and the Senators and Federal members of Parliament. Of those entitled to attend it is expected more than thirty-five will be present. Several arrived on Sunday and others came in early to-day.

Hon. H. H. Stevens, M.P., elect, the Conservatives of this Province would like to see him in the Provincial lists such a course for him at this time would not be fair either to himself or to the new leader of the Federal Party in the House of Commons. At Ottawa Dr. Tolmie is looked upon as one of the most useful and energetic members, and it is there that his task lies just as it does in the case of Mr. Stevens. The latter has a particular duty to perform in doing whatever lies in his power to see that the Customs revenue in bringing to light are the means of leading to a thorough house-cleaning in administrative methods at the Federal capital.

MR. FORD'S VIEWS ON TARIFF

WHAT MR. HENRY FORD THINKS
about tariffs ought to be carefully read by all those Canadians who really believed during the last election campaign that Conservative speakers were giving them the right advice when they asked them to support candidates who would increase all the import duties on goods entering Canada from other countries. The automobile magnate deals with the subject in his "To-day and To-morrow" in part as follows:

It is a noteworthy fact that none of the really great businesses of this country—the U.S.A.—those which strive to do their utmost to render service—have arisen because of the tariff or stand in the slightest need of protection.

Those businesses which claim that they need tariff protection will usually be found to be backward in method, producing poor stuff with ill-paid men.

One of the great steps which the United States might take would be to wipe out tariffs on all imports. That would be a real contribution to the world, and also it would be a real contribution to American industry.

This means in effect that efficient manufacturers are hindered rather than helped by so-called "protective" tariffs, which in reality "protect" and subsidize disservice to the community. Great Britain's pre-disposed protectionist Government, moreover, is actually turning down half the claimants to protection under the privileges of application that are extended by the Safeguarding of Industries Act because the evidence relied upon to prove the applicants' demands fails to convince the tribunals which have been set up that protection would be good for the industries in question or in the general interest. Free traders in Canada and Great Britain, incidentally, have on their side in the person of Mr. Ford a man of unrivalled experience of successful business.

The question of import duties may soon become particularly vital to the United States if the various economic arrangements which the important powers of Europe are negotiating should be followed by a complete revision or virtual abolition of international tariff walls in the Old World. Just what the outcome of the recent industrial conferences will be may not be known for some time. There is no doubt, however, that the movement is one of self-defence in an economic sense. Europe's debt to the United States is the cloud which overshadows Europe and the quickest way to clear the financial sky is by the creation of more business under the most favorable conditions. In other words, the Old World is about to make an effort to decrease its dependence upon American goods because the tariff wall with which the republic has surrounded itself prevents the admission of much of its own products.

It is a matter of fact, of course, that the favorable foreign trade balance of the United States with the rest of the world last year was the lowest since 1913. The general effect of the gradual decline of exports, brought about by the reduction of imports, may not be particularly serious from a national point of view at present; but it follows that if Europe pursues the co-operative economic plan which the recent international conference would seem to foreshadow, the fiscal policy of our neighbor may be subjected to a drastic overhauling. For if any nation is to be permanently prosperous, it must buy as well as sell.

THE TURNOVER TAX

THE REFUSAL OF THE VANCOUVER
Board of Trade to accept the report of a special committee recommending opposition to the proposed turnover tax of the Provincial Government has drawn from The Daily Province a comment generally favorable to the proposal. Our contemporary aptly points out that if the personal property tax is abolished and the turnover or no other tax is substituted for it, the Government will have to increase the income tax to make up for the loss of revenue. It points out further that the income tax can be evaded by many who should be contributing to the revenue of the country, particularly branch houses of extra-provincial companies, of which there are a considerable number in British Columbia.

All points considered, the proposed turnover tax is more satisfactory than the personal property tax, which the Government desires to abolish. Its imposition also would be better all round than any increase of the income tax, which as a matter of fact ought to be reduced. If the turnover tax sufficiently enlarges the circle of taxpayers it might be possible not only to abolish the personal property tax but also to reduce the income tax. It should be borne in mind that the end in view is the abolition of the personal property tax by imposing a less onerous alternative, but that alternative will not be imposed unless it is favorably regarded by the interests chiefly affected by it.

A GENTLEMAN

JUDGE MOWAT OF TORONTO AP-
pears to have opened a lively discussion in the eastern press by defining a gentleman as "a well-to-

do, well-educated man whose father was a gentleman before him, and who does not live in the manual planes of life."

The Toronto Star jocularly points out that if it is essential for a gentleman to have had a father who was a gentleman, the logic of the situation takes us back to Noah, who could not have qualified because he lived in the "manual planes of life." But why stop at Noah?

When Adam delved and Eve span,
Who was then the gentleman?

Adam certainly could not have qualified under Judge Mowat's dictum; his boorishness in blaming his wife for the apple incident alone was sufficient to disqualify him. And if Adam was no gentleman, neither was Cain, and if Cain was no gentleman, his son, according to the Judge's definition, could not have been one, since it was essential for a gentleman to have had a father who was one.

But even the most gentlemanly genealogy could not run back many centuries without a discouraging deviation. Some of our most well-to-do and best-educated men, whose fathers were gentlemen before them, would not care to be seen with some of their ancestors if the latter escaped up to earth for a few days. Indeed, if we read history aright, there are very few ancestors who were above suspicion.

Probably the Judge was merely defining the term for legal purposes, although we must confess to some surprise at a judicial interpretation so widely open to technical objection. We take it for granted, however, that he is aware that the greatest gentleman of all time was a carpenter, whose father was a carpenter, and therefore lived in the "manual planes of life."

REASON FOR OPTIMISM

IF ALL CANADIANS WERE AS OPTI-
mistic as the President of the Canadian Pacific Railway Company, and made a point of doing a little more trumpeting in their own and their country's interest, our economic and other difficulties would soon disappear. Mr. Beatty knows what he is talking about, and, what is more, he has access to information upon which to base his implicit faith in the Dominion's future.

Mr. Beatty summed up his outlook before the Investment Bankers' Association in Quebec the other day in a very definite manner. He first of all applauded our system of democratic government; then he put his reliance on the ability of the Canadian people to look at things in a sane light and grapple with their own problems. At the back of this he directed attention to Canada's shop window—a wealth of undeveloped natural resources of all kinds. This combination ought to be good enough for anybody.

If any more were required to cheer the average Canadian, he can find all he wants in the achievements of the nation in days gone by. The country's trade is increasing year by year; the Canadian dollar is worth one hundred cents in the United States and a good deal more in many other countries; new land is being developed; more money is being sunk in industrial enterprises; and, in a general way, the prospects are bright indeed. There is every reason for Canadians to be optimistic.

Sea-Serpent Mystery Explained

By AUSTIN H. CLARK

Are there any living sea-serpents in the seas to-day? There are just as many as serpents ever were. Then why do we not see them any more? Do they keep themselves always out of sight? Not at all; we see them to-day simply because we no longer think in terms of sea-serpents.

Did you ever stop to think that there are never any ghosts in apartments with electric lights? Ghosts live in old creaky wooden houses standing more or less in ruins and lighted by flickering candles or old fashioned lamps.

Sea-serpents existed in the days when we used to go to sea in small wooden sailing ships low in the water. Now that we travel in large safe steamers we see the creatures of the ocean as they really are. They are no longer magnified and distorted by our insecurity and fear. The sea-serpents have disappeared.

What were the sea-serpents? They were various things. Sometimes they were whales, sometimes a troop of dolphins, and sometimes a pair of giant sharks traveling one behind the other. A few were bands of seaweed floating on the surface. But most of the sea-serpents were giant squid floating dead or dying.

The largest of these giant squid is occasionally found floating in the Autumn on the fishing banks. The same or allied kinds are found in many other places in the oceans.

The squid found on the fishing banks reach a length of at least fifty-five feet with the body twenty feet long and twelve feet in circumference and the eye opening seven by nine inches. In one individual measured the tentacular arms were thirty-seven feet in length.

In October, 1875, between twenty-five and thirty of these giant squid were found by the vessels of the Gloucester fishing fleet on the Grand Banks and secured five of these, which were mostly from ten to fifteen feet in length, not including the arms.

Do You Mean What You Say?

The Register and Tribune Syndicate, Des Moines

TUNE THE OLD COW DIED ON

"THE TUNE THE OLD COW DIED ON"

This is a popular expression to-day to refer to any nondescript song or inharmonious bit of music. The original meaning of advice, instead of relief to one in need, or remonstrance instead of help, is practically lost sight of. The reference is to the well-known ancient song:

"There was an old man, and he had an old cow,
But he had no fodder to give her,
So he took up his fiddle and played her the tune,
'Consider, good cow, consider,' growl,
'Consider, good cow, consider,' growl,
'Consider, good cow, consider,' growl."

Canadian Questions and Answers

CHRYSLER'S FARM

Q—What was the battle of Chrysler's Farm?

A—The battle of Chrysler's Farm was fought on November 11, 1813. Back in 1777 a Whig mob had flung a boy, John Chrysler, almost to death because he would not tell the hiding place of his father, suspected of Tory sympathies. Later the family came to Canada as United Empire Loyalists and settled on the St. Lawrence. When the Americans attempted to capture Montreal in 1813 they were met and defeated by a force of half their number. The defenders were the Chrysler clan, including John and his relative.

The Weather

Victoria, Oct. 18.—5 a.m.—The barometer is rising over this Province and clear, fine weather is becoming general. Rain has fallen in Saskatchewan and Manitoba.

MASSEY'S WORK IS DISCUSSED IN LONDON

Premier King Takes up Subject of Canada's First Minister to U.S.

London, Oct. 18 (by cable from George Hamilton, Staff Correspondent of the Canadian Press).—The status of Canada's first Minister at Washington will shortly be discussed by Premier King with the British authorities. One of the points to be taken up will be that of the Canadian Minister's position during the absence from Washington of the British Ambassador.

Under the arrangement originally reached by the Borden Government it was proposed that the Canadian Minister, in the absence of the British Ambassador, should take charge of the whole Embassy and represent the Empire as well as Canadian interests. Premier King, it is understood, will probably have a revision to propose in this regard.

Hon. Vincent Massey is to be Canada's first Minister to the United States.

Gonzales Chapter.—A special meeting of the Gonzales Chapter I.O.D. will be held at headquarters on Tuesday at 10.30 a.m.

KIRK'S WELLINGTON 139

BEATTY EXPLAINS DETAILS OF C.P.R. BONDS AND STOCKS

President of Railway Tells Bankers of How Company Is Financed

Quebec, Oct. 16.—Addressing delegates to the fifteenth annual convention of the Investment Bankers Association of America, which has been held at the Chateau Frontenac here all week, E. W. Beatty, president of the Canadian Pacific Railway, spoke on Canadian development with particular reference to the Canadian Pacific Railway.

Beatty summarized the history of the road, stating that it had its inception as concomitant to the political Federation of the British Colonies of America in one Dominion of Canada. Its construction was begun as a government enterprise and went ahead slowly at abnormal cost. An investigation showed that it was carried on as a public work at a sacrifice of money and efficiency, that inefficient employees held places on party grounds and that large operations were carried on with much less regard to economy than in a private undertaking, the result being that the undertaking was turned over to a private company.

Thus a little syndicate of Scotchmen, Canadians and Americans understood the financial obligation of constructing the transcontinental railroad in ten years and as an evidence of their faith contracted to thereafter and forever efficiently maintain, work and run the Canadian Pacific Railway. The work was completed in five years and in 1885 the provinces of Canada were joined by this thin rail of steel and the object of confederation had been realized.

The progress of the Canadian Pacific, said Mr. Beatty, "has been due to the progress of Canada and the close knowledge of Canadian conditions would indicate the very great extent to which the company has contributed to the development of the Dominion."

"It would take some time to trace the gradual expansion of the company, from the year 1899, when it possessed 7,000 miles of railway to the year 1925, when it owns or controls 20,000 miles from the point where its gross earnings rose from \$125,000,000 twenty-six years ago to \$183,356,000 in 1925. From the time after payment of working expenses the company's net earnings of \$12,200,000 to last year's net of \$40,154,000 and to the gradual expansion of its outside activities, transportation and other companies."

BONDS KEPT DOWN
"It has what are known as 'high spots' both in its financial history and as a transportation unit, and one of the former of these has been the avoidance of a policy that would lead to a variety of securities in the shape of bonds issued or assumed by the company with reference to acquired properties on a leased and liquidated basis for new lines, each secured by mortgage on the particular property to which it applied."

"In order to avoid this undesirable situation, the company decided with the consent of Parliament to utilize consolidated debenture stock for the purchase of conversion of existing bonds, and to provide funds for building on acquiring such additional mileage as might appear to be required from time to time for the advantage of the country and the company itself. This consolidated debenture stock is perpetual and irredemable, differing from a mortgage bond in that it gives no right of foreclosure in the event of default but being a statutory first charge against the undertaking, railways, works and revenues of the company. The holders have first claim on the revenues of the company for working semi-annual dividends and the demands of existing bond holders have been satisfied. If by any chance the company failed to pay, within a fixed period, the dividend accrued on the debenture stock, the holders of the stock would become the shareholders of the company and would control its affairs until the default was made good, when the property would automatically pass back to the preference and ordinary shareholders."

COMMON STOCK HIGHLY VALUED

"The second financial characteristic distinguishing the company is that in the twenty-five years just passed the shareholders accepted \$125,000,000 of common stock for which they paid \$262,000,000, the original common stock of the company, amounting to \$65,000,000 was sold at a heavy discount, but notwithstanding this the entire \$260,000,000 of this stock now outstanding has yielded to the treasury in cash an average of \$112 for each \$100 of stock and if the additional amount supplied for capital expenditure from the surplus belonging to the shareholders is taken into account, the shareholders are paid an average of \$143 for each \$100 of stock they held."

Mr. Beatty pointed out that the railway rates in Canada, both passenger and freight, are in the main less than those for similar commodities in the United States and

in some cases, such as grain, are lower by a substantial.

"How is it possible," he continued, "under these conditions for the Canadian Pacific to attain such results when it is taken into account that the rates of pay to employees in every branch of the service are generally as high and the cost of rails, fuel and other material required are higher than in the case of railway lines in corresponding territory in the United States?"

"The achievement may be attributed primarily to a policy keeping down fixed charges while extending rails into new productive territory and improving the standard and efficiency of its property as revenue warranted aided by the economics naturally attending the long haul of traffic over its own rails to its own terminals with none of the heavy tolls for handling, switching and kindred services that other companies are required to bear, the opportunity to make the maximum use of its own equipment with the consequent saving in the cost of hire and the lesser amount required for general and traffic expenses as compared with any combination of competing lines to the south."

"The company has received 25,000,000 acres of land, afterward reduced to 18,000,000, in Western Canada," said Mr. Beatty. "Initial sales of this land were unsatisfactory and prices yielded only \$1.50 to 12.50 per acre. It was not until seventeen years after the company's incorporation that buyers in any number were attracted. But the land grant did assist the company in its financing, and forced upon it colonization and immigration policies without which the progress of Western Canada would have been discouragingly slow."

The speaker drew attention to the fact that all the company's auxiliary enterprises, such as telegraphs, express, terminals, warehouses, etc., were reserved and developed for the advantage of the shareholders, and that the resulting profit to the company's exchequer is very substantial. None of these had gone to other corporations or to individuals connected with the company, and the same was true of the land grants appertaining to lines taken over by lease or purchase also coal and metal mines, smelter and other assets now playing an important part in the annual balance sheet of the company, which

might also have been coveted and acquired by what are commonly known as insiders. Not a penny was permitted to slip through such channels. While the individual credit of directors was more than once asked and freely granted, no consideration was ever given except the refund or out-of-pocket expenses and bank interest.

You may properly say to me, "what are the major difficulties which Canada has to surmount?" Our principal difficulty is that our population is not as large as it should be, and that in view of its relative sparseness, the fight against geography, which is incident to the development of any country of very great distances, becomes a real major problem. I know of no country whose major problems are simpler than those of this country. I do not know of any question, whether it be fiscal, transportation, the development of natural wealth or the increase of its industrial activities, that cannot be solved partially or entirely by more people.

Nothing is more fascinating to human beings than the process of construction, particularly when human beings feel that they themselves are sharing in that constructive process, and one of the factors which is helping to develop a Canadian spirit is the realization of our people that they are making their own substantial contribution to the building of a nation. Our youth inspires courage and confidence, and our Canadian institutions are developing within their own rank an esprit, the influence of which is felt far beyond the boundaries of the institutions, a spirit of loyalty, of constructive effort and of pride in growing achievement, are factors which in our view are bound to constitute a conspicuous contribution to the development of what will be a very great nation.

We have a good selection of evening gowns in exquisite fabrics and colorings. Many are heavily beaded in beautiful and uncommon designs. The hooped skirt is shown in georgette and lace. Some feature a tiny sleeve, others are sleeveless with round and V neck lines. Trimmings include silk and tinsel rosebuds, sequins, silk petals, feather and tulle drapes, silver lame, applique and stencil work; all sizes.

\$45.00 to \$69.50

—Second Floor, H.B.C.

Nemo Flex Corsets and Girdles

Provide Correct Foundations for All Costumes

Nature does not duplicate her handiwork. Figures, faces, finger prints—they're all different.

This means that every woman has a problem of her own. To get complete satisfaction out of whatever type of girdle or corset she selects she must buy one that seems to have been made for herself.

In our Corset Department is a complete stock of Nemo Flex including beautiful models to easily beautify every type of figure and so smart in themselves as to be a welcome addition to one's wardrobe of dainty lingerie. Consult our experienced corsetiers. For your convenience we suggest phoning for an appointment.

Nemo Flex Girdles A light, cool garment, thoroughly flexible yet providing perfect control of the figure. Made of firm pink coutil with elastic side sections. A flat back effect is achieved by the four firm steels, with lacing below front that controls the thighs; sizes 29 to 34. Price **\$3.50**

We have a complete line of Nemo Flex Combinations, suitable for various types. Prices **\$3.95 to \$7.50**
Non-lacing Girdles Made of lovely broche with heavy knit elastic panels for expansion. Short front clasp with good length skirt; sizes 26 to 38. Priced at **\$6.50**
Nemo Flex Corsets Suitable for average figures. Made of lovely broche; the low top has inserts of Nemo-flex under bust, grading high in back. The skirt is well cut with firm boning throughout abdominal section, elastic gusset for expansion when seated; sizes 26 to 32. Price **\$6.00**

NEWS IN BRIEF

A meeting of the Esquimalt Liberal Association will be held on Tuesday evening at 8 o'clock in the Liberal rooms, Esquimalt.

The choir of Metropolitan Church last evening gave a special programme of music, which was greatly enjoyed by all present.

A meeting of Ward One Liberal Association will be held in the Liberal rooms, corner of Government and Broughton Streets, to-night at 8 o'clock.

The Ladies' Auxiliary to the Army and Navy will hold their regular meeting Monday at 8 p.m. in their room, 514 Fort Street. All members are requested to attend.

The Esquimalt Liberal Association will hold its annual meeting on Tuesday night, at headquarters, at 8 o'clock. Mr. M. Manson will address the meeting.

Dr. Sippell will conduct the mid-week service at Metropolitan Church on Wednesday of this week, when he will give a brief address on "The Challenge of the Christian Life."

The regular meeting of the Metropolitan Men's Brotherhood will not meet Tuesday night, owing to the concert being given by the Ladies' Aid on the same evening.

A meeting of the Saanich Central Teachers' Association will be held this evening in Tolmie School, commencing at 8 o'clock. As this is the first meeting of the winter season, all members are urged to attend.

John Harris, E. A. Morris and Peter Haras, all charged with selling liquor, to wit, rum, brandy and whisky, who have been remanded many times already, will be called to-morrow and a date set for their hearing.

The Victoria Machinery Depot has secured a contract for the construction of two steel steam boilers for the Sidney Roofing and Paper Company. The boilers will be completed about the latter part of December, and will cost in the neighborhood of \$5,000.

Mayor Pendray will address a gathering of North Saanich and Island residents under the auspices of the Sidney Board of Trade at a meeting called for Thursday evening at Sidney. "Homegrown Payroll" will be the subject of his speech.

This evening the Young People's Society of Metropolitan Church will present a lecture on the mission work of the United Church of Canada in Japan. Illustrated by beautiful colored slides. This will be the beginning of a series of such lectures on the foreign mission work of the United Church.

Arthur John Jones, able seaman, charged with attempted rape, and with several other times, remanded, must wait until Wednesday for hearing of his case. The prohibitive amount of bail money required for the accused, \$10,000, made it necessary for Jones to spend the days following his arrest in jail here.

In the City Police Court this morning the following persons were fined for various infractions of City traffic regulations: J. R. Clifford, no rear light, fined \$5; George Jones, parking by a hydrant, fined \$5; Violet Renny, no driver's license, fined \$5; David Wyber, no rear light, fined \$5; Mrs. L. Shandley, R. G. Christie and R. L. Webb, all were fined \$1 for parking longer than an hour in restricted areas.

A further session of the court of revision on the civic 1927 assessment roll will be held at 10:15 a.m. to-morrow to proceed with appeals. Having announced cuts on Johnson Street and definitely abandoned any change in the Douglas-Yates-Port Street loop at the present time, the council committee is turning its attention to the balance of the appeals put in. These are few in number.

The Victoria Burns Club will resume its monthly meetings for the season, 1926-7, the first meeting to be held on Wednesday evening, October 20, at 8 o'clock in the Chamber of Commerce Hall. John Hosie, Provincial Librarian, will give an address on James Thomson, the Scottish poet, and an excellent programme of Scottish songs and music has been arranged. A large number of new members have joined the club.

Major F. T. Foort, late of the British Indian Army and a veteran of the Palestine campaign, will deliver a series of lectures, relating to policy, on Wednesday, Thursday and Friday evenings of this week at 8 o'clock, under the auspices of the British Israel Association, in the King's Hall, 571 Yates Street. The subjects in their sequence will be: "Will There Be Another War With Turkey?" "British Columbia in the Coming Struggle." "A Thief in the Night."

OUR moving vans go wherever there is a road. We move household goods, office or factory equipment, and you can feel satisfied that you'll be satisfied.

HOTEL LOBBY GOSSIP

PRINCE OF ANCIENT LINEAGE

The hieroglyphics appearing after the word "Orator" in the hotel registers of the country really mean prince and princess. The Prince, who arrived here at the week-end with the Princess, explains to newspaper reporters that they mean only "Mr. and Mrs."

The Prince and Princess, who are of one of the oldest and most historic families in Italy, spent a day in Vancouver and then came on to Victoria. They have some on to Seattle and down the coast. They said they were merely on a quiet trip, anxious to see what the Western world is like.

The Prince speaks English with ease and has little resemblance to some of his bellicose ancestors in the days of the feuds of the Guelfs and Ghibellines in the fourteenth and fifteenth centuries. For the members of the Orsini family in those days there was much courage to be displayed as they were the leaders of the Guelfs. One member of the Orsini family was a Pope in 735 and another in 1724.

SEA COMMANDER WHO BECAME MISSIONARY

The "O. F. Hodgson" who arrived at the Dominion Hotel at the end of

B.C. Telephone Company installation north of Cobble Hill have been completed, it is announced by C. J. Patterson, district commercial superintendent. Extension will be made in the Cowichan Bay area so that pay stations may be installed there.

Esquimalt school trustees extend an invitation to the opening of the new school next Wednesday at 2 o'clock. The ceremony will be performed by Dr. S. J. Willis, Superintendent of Education. Previous to the ceremony honor rolls and prizes of a Patron's Life. The proceeds will be towards the institute. Tickets are obtainable from members of the guild. Music will precede and follow the lecture.

In commemoration of Trafalgar Day, Don C. S. Quantin will lecture at the Connaught Institute, Superior Street, Thursday evening. His subject is "The Honor and Faith of a Patron's Life." The proceeds will be towards the institute. Tickets are obtainable from members of the guild. Music will precede and follow the lecture.

With the receipt in the mail this morning of a cheque for \$100 from Walker "Nick" Jones, the proceeds of the milk fund of the Dr. O. M. Jones Chapter, I.O.D.E. This will be used for the distribution of milk to the children of the city schools. The committee wishes to thank the following: Miss Kathleen Hall and Mrs. Gillespie, for the milk fund; Mr. Gibson, principal of the Normal School; Madame Sanderson-Mongin of Victoria College; Mr. Norton of the Northwest Creameries; Mr. W. A. Grogan, J. Sheret, Holloway and Maunsell for counting the money; Miss Gregory, Allen and Mrs. Christie, The Times and The Colonist for publicity; Mrs. Cassidy for assisting; Capt. W. Ellis for painting the boxes, and all who assisted in making the tag day such a success. The taggers who worked so hard, and the public who contributed so generously, are especially thanked by the regent and committee.

Members of the Gyro Club celebrated Founders' Day at their luncheon at the Chamber of Commerce to-day. "Mike" Finland, Governor of District 4, was the speaker.

"Gyro has experienced a consistent and steady growth," declared Governor Finland, who pointed out the forward strides that the movement had taken since its inception in Cleveland more than a dozen years ago.

The quality of Gyro was determined by its friendship, explained the speaker. The members of the club then took the pledge to adhere to the principles of Gyro as laid down by the International Gyro.

Bob Yates, former Victoria Gyro, was welcomed back from California by the members of the club. He had decided there's no place like home and intends to remain here.

The bride doll of 1851 among wares for superfluous sale.

Toy Shown at Great Exhibition to be Sold for Solarium

A beautiful doll in bridal robes which was shown at the Great Exhibition held in Hyde Park, London, in 1851, is among the treasures which have been handed over for the superfluous sale which the Rotary Club is staging Wednesday at Gordon's old store in aid of the Solarium fund.

The owner of the doll was reticent as to its history beyond stating that it had been exhibited at the great fair, but with a little girl who is lucky enough to secure this treasure will be able to weave wonderful romances around this toy which has looked out through understanding eyes upon many generations of little mothers, from the pantaletted, ringletted demure little miss of the Victorian era to the bobbed and short-skirted modern child.

In the midst of a host of such prosaic superfluities as vacuum cleaners, baby baskets, two fine armchairs, and similar domestic wares, there was a bust such as phenologists use for the denoting of "bumps," and one wonders who will acquire this aid to character-reading.

Another collection comprises brand new caps and ties, donated by a local merchant. These are of the latest style and any would-be buyer wishing these will have the added satisfaction of knowing that the Solarium will benefit by his smart appearance. Many and varied are the articles on hand, but it is hoped that the collection will be trebled before the sale opens on Wednesday.

"Industrial development of the seed and potato industry of the Province" will be the subject of an address to be delivered by Cecil Lee, Provincial Agronomist, at the regular weekly Kiwanis luncheon to-morrow.

EVERY LUMBER CAMP WORKERS MUST GET NEW MINIMUM WAGE

No Exemptions Possible For Labor Not Actually Handling Lumber

Flunkies and Bull Cooks to Receive Benefit With Other Workers

In obeying British Columbia's new minimum wage law, the lumber industry of this Province will have to pay minimum wages to all its workers, whether they are actually engaged in handling lumber or lumber products or not.

This was made clear officially after lumbermen had asked whether they had to pay minimum wages to such employees as cooks, flunkies, bull cooks and camp assistants. These men, whether they are in the orders of the administrative board in charge of its enforcement under which any adult male employees of lumber companies may be exempted, except in the case of physical disability.

LONG HOURS WORKED
Lumbermen complain that many of their camp assistants, bull cooks and flunkies are on duty for many hours each day and that an hourly wage of forty cents would make their total income unjustly large. To meet this condition, the operators will have to devise some system of shifts as no exemptions from the law will be allowed in the case of these employees.

To meet this condition, the operators will have to devise some system of shifts as no exemptions from the law will be allowed in the case of these employees.

OFFER SERVICES NOW

In a joint letter to the City Hall to-day the four Conservative members for the City of Victoria in the Provincial Legislature offer their services in connection with any legislation the city council may have at the forthcoming session of the House. The offer of the members, Reginald Hayward, Joshua Hinchcliffe, Gus Lyons and H. D. Twigg, will be laid before the City Council at the regular session to-night.

DATES FOR PRIVATE BILLS ARE ARRANGED

Monday, December 27, has been set as the last day on which petitions for the passage of private bills may be laid before the Provincial Legislature. These bills must be presented to the House on or before Thursday, January 6, and reports of House committees on these measures must be received by January 13.

Gerhard Heintzman

BACK to a quantity production basis and back to a pre-war price—that is the whole story of the amazingly successful year enjoyed by this great Canadian piano.

While production has been speeded up tremendously in order to bring the price down to the lowest level at which a quality piano has been sold in Canada since 1914—not a single detail of Gerhard Heintzman quality has been slighted. It is the same sweet-toned beautiful piano that has made the name Gerhard Heintzman respected in this country for more than fifty years. At this new low price it is unquestionably Canada's greatest piano value.

NOW \$495 On Terms

CHURCH HAS MADE SPLENDID STRIDES

Rev. Dr. Wilson Tells First United Congregation of Progress at Anniversary

Commemorating the sixty-fifth year of Presbyterianism in Victoria a special service was conducted at the First United Congregation of Progress, the pastor, Rev. Dr. W. G. Wilson, dealing in his address with the history of the church and the great strides it had made in Presbyterianism in this city.

A large congregation attended the anniversary, showing the great following which the church has here. Special music was rendered for the occasion and a spirit of joyousness pervaded the proceedings.

Next Sunday Dr. Wilson will talk about the future of the church and the prosperity which lies ahead of it.

Dr. Wilson praised the pioneers who founded the cause in this city sixty-five years ago, and who had formed the early congregations. He pointed to the worthy line of successors which followed them and to the succession of ministers who had been pastors of the church.

It was five years ago on October 14 that Dr. Wilson preached his first sermon in the church. He mentioned the progress which had been made by the congregation during his pastorate. Both in material and spiritual ways it had prospered, he said. Five years ago the church shouldered a debt burden of \$30,000. This was now reduced to \$15,000 with prospect of wiping it out entirely during the coming twelve months. The Sunday School had increased 60 per cent he said. A point of progress with which Dr. Wilson was particularly proud was that of missionary work. Missionary offerings during the last five years had increased over 200 per cent, he stated.

At the evening service the Young People's Society took complete control under the direction of Rev. John Goodfellow. John Gough addressed the congregation at this service.

The regular meeting of the Royal Society of St. George will be held on Tuesday, in the Campbell Building, when Rev. Robert Connell will give an address on the subject of "An English Ploughman Poet." The meeting will start at 8 o'clock.

Kabul, a Hindu, appeared in the City Police Court this morning before Magistrate Jay, charged with assaulting a woman, Jessie Ainsworth. Ainsworth, who had been assaulted by the man, Kabul, is a giant with heavy beard, but he has the gentle manner of his race and was calm and courteous in court. He was remanded until October 20 when the court will hear the case.

From the Livers of the Lowly Codfish, Weak, Frail, Thin People Gain Needed Weight and Strength

McCoy's Cod Liver Extract Tablets will increase your weight 5 pounds in 30 days or money returned from any druggist.

Medical science progresses rapidly and now you can get at your druggist's real, genuine cod liver extract in sugar-coated tablets that young old can take with ease and pleasure.

Even the rundown and skinny grown-ups, who need to take the health, strength and weight producing elements that comes from codfish livers, because it really is the greatest vitamin food and builder of healthy flesh in the world, will feel extremely joyful when they read this welcome news.

Of course, doctors have been prescribing cod liver extract in tablets for many years, but it is only of late that one can walk into a drug-store and get a box of these flesh producing, health creating tablets just as easy as a box of talcum powder.

Thin, run-down, anemic men, women and children who need to grow strong and take on flesh, are advised to get a box of McCoy's Cod Liver Extract Tablets and if the gain is not 5 pounds in 30 days just get your money back.

One woman gained fifteen pounds in five weeks, according to her own doctor. Another ten pounds in three weeks. A very sickly child aged nine, twelve pounds in seven months and now plays with other children and has a good appetite.

Just ask for McCoy's Cod Liver Extract Tablets. At Vancouver Drug Company, MacFarlane Drug Company, G.W. Drug Company or any druggist will tell you that they are wonderful flesh and health builders. Only sixty cents for sixty tablets—and don't forget that they are wonder workers for feeble old folks.

Get McCoy's, the original and genuine, and beware of imitations. (Adv.)

BIRTH OF FIRST MODERN REPUBLIC IS PORTRAYED IN FILM "WILLIAM TELL"

Scenes in Revolt Picture Showing at Capitol This Week Were Made in the Alpine Forest Cantons, the Original Ground of the Story

In the film, "William Tell," now at the Capitol Theatre, made by Emil Harder with close fidelity to the stirring epic behind Frederick Von Schiller's classic romance, Canada is presented with the Swiss "Birth of a Nation," done on a noble scale.

The picture is made on the original ground, in the Alpine forest cantons, against the inspiring peaks where the first modern republic had its birth in the rebellion of determined men. In that respect it complies with a growing demand to have historic romances filmed where the events transpired.

Swiss officials were at first opposed to the project, on the ground, it is said, that prospective tourists might be so satisfied with a film

AT THE THEATRES

Capitol—"William Tell."
Columbia—"The Love Maid."
Dominion—"The Girl in the Taxi."
Coliseum—"The Girl in the Taxi."
Playhouse—"The Great Oak Bay Scandal."
Crystal Garden—Swimming and Dancing.

journey to the Alps that they would forego an actual trip.

Of the forest and lake land, and village life, there is an entrancing plenitude, and one gets the deep impression that amid just such grandeur was it fit and inevitable that the ancient and arrogant rule of Hapsburg should be hurled back before William Tell and his stalwart compatriots.

William Tell, played with robustness by Felix Orell, enacts this part in the Swiss revolt early in the narrative, while his name continues as a symbol of strength and purpose in the struggling little nation.

There is fine pathos in the apple-shooting episode, and it conforms, happily, to the impression the American child gets from his early reader. Other episodes of the Swiss revolt are presented with such heroic dignity and piety that a world which has grown very shy of the word revolt need fear no incitement against established order from the pictorial example of "William Tell."

MERRYMAKERS IN PATRIOTIC WEEK

The programme to be presented by the Capitol Merry-makers this week will be in the nature of a patriotic presentation to commemorate the battle of Trafalgar. A special selection has been prepared which will visualize in music the different events which took place on that day. In addition to this, there will be, of course, the sailor's hornpipe and also special patriotic songs rendered by Mr. Jewkes. L. A. Lambert will render a solo from the opera "William Tell," as an introduction to the feature picture, "William Tell," which will be the attraction at this theatre all this week.

What Will Happen When Dantchenko's Rigid Hand Falls on Hollywood?

Moviana has not yet fathomed the significance of the quiet and unheralded appearance in its midst of Vladimir Dantchenko, one of the world's most eminent and sincere theatrical directors.

Those whisperings of hope for betterment of the film, so frequently belied by endless reels of sheer junk, are more easily listened to when one by one the major wizards are lured to Hollywood.

Dantchenko, to the event his name may be strange, wove out of starvation and travail, in the very midst of the Russian chaos, one of the greatest dramatic and operatic organizations of modern times—the Moscow Art Theatre.

WITHOUT MURRAH

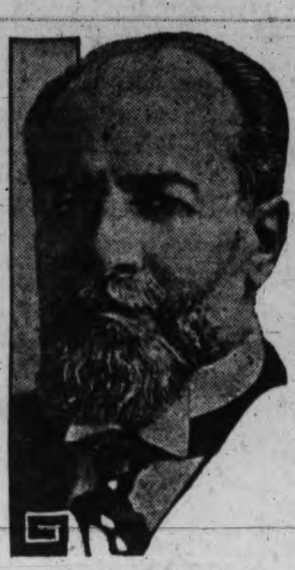

And one day recently, unbeknownst even to the United Artists Corporation, with which concern he will be identified, he came down the gang plank of a liner and, a half hour later, walked into the office of Joseph M. Schenck, announcing that he was ready to go to work.

Probably twenty-four hours thereafter Schenck's office made formal announcement that Dantchenko was to be supervising director, with no strings attached to his position and with power to go about advising and supervising, directing, and organizing as he wishes.

PERFECTING DETAIL

In the Moscow Art Theatre, Dantchenko gained his reputation by molding an organization in which the most minor person or detail was expected to reach a degree of perfection akin to the leading figure and outstanding detail; in which movement and pantomime and dance were given importance equal to the acting; in which all the arts were coordinated to the establishment of a perfectly organized stage picture.

Frequently the star was called upon

Vladimir Dantchenko

to play a minor role and no person was so important as to capture the performance. This hardly fits in with the Moviana scheme of things. What is more, Dantchenko is by no means impressed by the film stories. He told me that he believed in the Balanchine method as used in "The Comedy Humaine," and wanted more than anything to bring out psychological phases of character and story.

"I do not pretend to know the films, yet," he admitted. "I intend to spend some time just watching the wheels go round and getting acquainted. I cannot announce a definite scheme now. I should like to bring to them such compositions as we used in the theatre, but I could not now say how it will be done."

And so Dantchenko goes to Hollywood.

WHAT WILL HAPPEN?

What will happen thereafter is likely to prove the sincerity of all the whisperings about bettering the films. Perhaps the fanfare concerning his coming has been muted on this account.

Dantchenko is a hard, almost violent, worker. He is a most exacting task-master and, in his past work, has insisted on all who work with him subordinating their egos to the good of the theatre and play.

How this will work out with the petted and pampered Movianans is difficult to predict. It may be that a new order is about to come into being, in which case Joseph Schenck will be responsible for moving picture history. It may be that Dantchenko will return to Russia as quietly as he came. In which case—well, they will at least have tried.

Oak Bay Scandal Hincks' Production On Playhouse Bill

"Bluebeard's Seven Wives" Is Presented on Screen

"The Great Oak Bay Scandal" will be presented at the Playhouse this week. Parts will be taken as follows: Miss Gonzales, Vivien Combes; her husband, Harold Bechtel; Mr. and Mrs. Hampshire-West, Charley Courrier and Eva Payne; Mrs. Monterey, Eleanor Duncan; Miss Beach Drive, Peggy Sullivan; Thomas Rockland, Jack Gilmore; Uncle Peter, Reg. Hincks, and Chalmers, the maid, Roberta Balcom. On the screen "Bluebeard's Seven Wives" is offered.

It is probable that no other leading man of the screen has such a galaxy of feminine beauty in his support as Ben Lyon in Robert T. Kane's First National production, "Bluebeard's Seven Wives," now showing at the Playhouse Theatre.

Playing opposite the young star is Lola Wilson. As his leading lady in "Romeo and Juliet," a picture within the picture, is the seven "wives," Dorothy Sebastian, Diana Kane, Katherine Ray, Lucy Fox, Muriel Spring and Kathleen Martin.

Surrounded by all this delightful femininity, Ben Lyon romps his way through situations that alternate between the ridiculous and the romantic. At first he appears as a bashful, stammering bank clerk. Second, he stars in a picture in a role of the Valentino type. Next, he is passed off as a celebrated Spanish film star by his press agent. Fourth, he assumes the part of Romeo in "Romeo and Juliet," and fifth, and last, he returns to his original self.

Alfred A. Santell directed. The story is by Blanche Merrill and Paul Schofield.

Excellent Cast Chosen For Film "The Love Maid"

Leatrice Joy Is Supported By
Talented Actors In Columbia
Picture

Recognizing the fact that a talented star, a good story and a competent director may produce only a mediocre picture without strength in the supporting cast, Director Paul Sloane devoted much attention to the selection of a cast for "The Love Maid." Leatrice Joy's new starring vehicle, which is now showing at the Columbia Theatre.

As a result, every role is properly portrayed. Opposite the star is Edmund Burns, who with Miss Joy made an entertaining combination in "Hell's Highway." Cecil B. De Mille's first independent release, Ethel Wales of "Covered Wagon" fame, was chosen for an important character part following her excellent work in "The Wedding Song," in which she also supported Miss Joy. The heavy role is filled by Herbert Grasby, an English actor, who gained recognition by his work in such pictures as "Midchannel," "The Fighting Chance" and "Fifty Candles."

Coliseum Players to Offer Another Big Comedy This Week

"The Girl In The Taxi" Will
Occupy Boards At Popular
Theatre

Last week's presentation of the farce success "Are You a Mason?" made such a tremendous hit with Coliseum patrons that the management of the popular Government Street playhouse, always anxious to cater to the immediate fancy of lovers of the legitimate stage, have chosen as this week's attraction another three-act farce "The Girl in the Taxi," an ultra humorous play with an equally humorous record.

The story is brimful of exciting situations and humorous complications. Ed Redmond and Vangie Bielby take the parts of an elderly married couple, whose son (Alex Wiers)

is being raised by them along strictly "simplified" lines. Mr. Redmond's upright character in his own home is a scream, for, as the story unfolds itself the audience follows the virtuous pap to a scene of riotous night life.

Frank Allwood has an excellent role as a perfume manufacturer, whose wife (Ruth Hamilton) is the "Girl in the Taxi," a lady of many affairs. Edmond, Geo. Olsen as a roue, Eileen Allwood as his wife, Gertrude Burton as a French maid, Jack Cassidy as a chef, Harry Gibbs and Jack Robinson as policeman and waiter, respectively, and last, but by no means least, Major Taylor as a friend of the family and a loquacious old nuisance, complete the cast of a play which should meet with enthusiastic approval.

Famous Light Opera Company Coming Here In "Bohemian Girl"

May Valentine Will Bring
Players To Royal For
Three Days

Delightfully familiar in its old melodies, but ever new in its charm and romance, "The Bohemian Girl," the world's best loved ballad opera, presented by May Valentine's Comic Opera Company to Royal Victoria Theatre, Thursday and Friday, October 28 and 29.

Miss Valentine, the gifted and intelligent director, will conduct her own orchestra and her company is far superior to any light opera organization touring America. She selects every member of her company and the excellent cast of artists and chorus of unusual singers will prove a treat to lovers of the best stage offers. Its melodies, which have charmed the world for three generations and continue to lead from a standpoint of melodic charm, include "The Heart Bowed Down," "Then You'll Remember Me," "Fair Land of Poland" and "I Dreamt I Dwelt in Marble Halls."

The story is simple and delightful, being built around the devotion of Count Arnhelm for his young daughter, Arline, her mysterious abduction by a band of gypsies, where she later falls in love with a young Polish officer who has renounced his country for the life of Romany. The Gypsy queen becomes jealous and plots against them. Many years later, Arline is recognized by her father when she is taken before him, accused of theft. Through the intervention of the Count, she is freed and the story ends happily.

REGIMENTAL ACTIVITIES

Fifth (B.C.) Coast Brigade, C.A. Orders by Lieut.-Col. J. C. Harris, commanding, Headquarters, Victoria, October 16, 1926:

Certificate—L. Sgt. McGregor, G. S. 58th Field Battery, C.A.; sergeant (W. 211). Attended R.S.A. (C.D. and P.A.) Esquimalt, from October 26, 1925, to November 14, 1925, and Artillery Camp School, Sarsce Camp, Alberta, from August 12, 1925, to August 24, 1925. V. 65-1-2.

School of Instruction—School of instruction for N.C.O.'s and O.R.'s to be held on Tuesday of each week until the middle of December next, will begin at 8 p.m. on Tuesday, October 19. All ranks are advised to attend this class. Text books, etc., will be supplied.

Regimental Sports—Commencing Friday night, October 23, various games will be organized and instruction given in physical training by special P.T. instructor. The swimming tank will be reserved for all ranks of the 5th (B.C.) Coast Brigade, C.A., and expert instruction given in swimming. All ranks are requested to take an interest in the above, with a view to forming teams for competition in the various events among the local military and other units.

58th Heavy Battery—A meeting of the 58th Heavy Battery will be held in the men's room at the Armouries at 9 p.m. on Tuesday, October 19, when all members are requested to be present.

P.T. STERN, Major, Adjt.

Fifth (B.C.) Coast Brigade, C.A.

No. 2 Co., 11th D. T. C.A.S.C.—The company will parade on Tuesday, October 19, 1926, at the Armouries for drill, etc. Dress: Service. By order J. C. F. HYNDMAN, Major.

BRILLIANT CAST SUPPORTS ALICE TERRY AND ANTONIO MORENO IN "MARE NOSTRUM"

Alice Terry Departs From Queenly Role and Portrays Sensational Woman in Picture at Dominion Theatre This Week

Alice Terry and Antonio Moreno enact the leading roles in "Mare Nostrum" and give one of the most delightful and sincere performances ever seen on the screen. During their motion picture careers these two noted players have never appeared at such an advantage as in "Mare Nostrum," commencing to-day at the Dominion Theatre.

Freya Talberg, the beautiful blond spy, as portrayed by Alice Terry, is a sensational woman and at the same time sympathetic and real. It is a complete departure from the queenly parts Miss Terry has enacted in previous pictures and the result is a sincere tribute to her as an actress.

Antonio Moreno has long awaited a Blasco Ibanez story and the handsome Spanish actor takes advantage of his opportunity. Moreno is one of the most romantic figures on the stage or screen, and in this picture he demonstrated he is a finished actor.

Both Miss Terry and Moreno are strong box office attractions. Miss Terry made her debut in a stellar role in Rex Ingram's production of "Hearts Are Trumps." She followed this with leading parts in "The Four Horsemen of the Apocalypse," "Where the Pavement Ends," "The Conquering Power," "Turn to the Right," "The Prisoner of Zenda," "Scaramouche," and "The Arab." These were all Ingram productions. Miss Terry was also featured in the Metro-Goldwyn production of "The Great Divide" and "Confessions of a Queen."

Moreno has been featured in many outstanding pictures during the past few years. Among them are "The Spanish Dancer," "The Exciters," "Tiger Love," "Her Husband's Secret," "One Year to Live," "My American Wife," "Learning to Love," and others. Previous to appearing in feature productions Moreno was one of the world's leading serial stars. He is a veteran funny man of the films, having made his debut with Flora Finch with the old Vitaphone company.

The remaining members of the cast are new faces and new personalities to the American screen. Ingram's pictures have always been noted for interesting characterizations and unusual types. With a European story and the leading Continental actors and actresses to choose from, the youthful director presents some remarkable new people who are most convincing in their parts.

Among the leading foreign players who appear in "Mare Nostrum" are Fernand Mailly, Mlle. Kithnou, Michael Brantford, Frederick Mariotti, Mme. Paquerette, Andre von Engel, Rosita Ramirez, Uni Apollon, Alex Nova, and Kada Abd-el Kader.

NIGHT PROGRAMME BY MUSICAL CLUB

Edna Baiss, Pianiste, to be Guest Artist Wednesday

At the first of its "guest artist" recitals to be given at the Empress Hotel ballroom on Wednesday evening, October 20, the Ladies' Musical Club will present Mrs. Edna Baiss, a pianist of fine reputation. Mrs. Baiss will be assisted by other well-known artists including Mrs. Mary McCoy Jameson, soprano; Mrs. Chris Wade, violinist; and David C. Hughes, tenor.

The programme in detail follows: Piano—Introduction and Presto (Concert Stuck) Weber Edna Baiss Soprano—(a) Lullaby dal caro-bene (b) Amarilli... Secchi Mary McCoy Jameson Tenor—(a) "All Through the Night" (b) "Winnie Dear" Old Welsh David C. Hughes Violin—(a) Phantasie... Schumann (b) "Hills" La Forge Mrs. Chris Wade Piano—Ballade in G Minor... Chopin Edna Baiss Soprano—(a) "At Eve I Heard a Flute" Strickland (b) "Hills" La Forge Mary McCoy Jameson Tenor—(a) "An Emblem" Thompson (b) "The Last Hour" Thompson Piano—(a) Valse, F Minor (b) Allegretto (c) Momento D'Fantasia. —Espinosa

Edna Baiss Accompanists—Miss Rita Orlington and Mr. Chris Wade.

George Arliss Pays First Appearance In Twelve Years

Famous Actor Will Play "Old English" For Three Nights At Royal

George Arliss makes his first appearance here in twelve years, when Winthrop Ames presents him in John Galsworthy's "Old English," for three nights and a Saturday matinee, beginning Thursday, November 4, at the Royal Theatre.

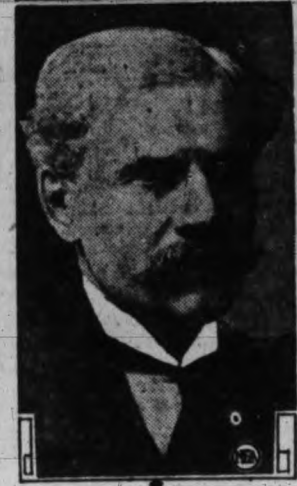

Galsworthy has written many successful plays, but "Old English" has achieved the widest popular appeal of anything the noted Englishman has done. Though this comedy differs from the usual Galsworthy study in that it is not a discussion of social or moral issues, it contains in its central figure, one of the most magnificent characters Galsworthy has created, that of the octogenarian singer, Heythorpe, who dies as he has lived, proud, unafraid, unrepentant, without self-pity. Arliss has, according to reports, accomplished one of the notable pieces of acting in the history of the theatre in this role.

Irby Marshall, the prominent Australian actress, is Mr. Arliss' leading woman. The company includes the players who impressed New York during the 200 performances there. Mail orders will now be received.

MOROCCAN WAR ENDS

Paris, Oct. 18.—M. Painleve, War Minister has informed the Cabinet the war in Morocco is completely over. He asserts the reputation of the troops would be completed by November 20 and that the forces remaining in Morocco will be on the peace basis of 1921.

GOES TO SAHARA REGION FOR HEALTH; RAMSAY MacDonald

London, Oct. 18.—Ramsay MacDonald, parliamentary Labor leader and former Premier of Great Britain, suffering from a chronic lung trouble, left to-day on the orders of his physician for a health tour of several weeks which will take him to the southern Sahara.

was held on Wednesday. The Assessor, A. Menzies, acted as auctioneer.

Mr. J. Hughes of Vancouver has been spending a few days at "Culzean."

Mrs. Naylor went to Vancouver for a few days.

Mr. Beatty of Vancouver has taken Mrs. Maude's cottage for the winter.

Captain and Mrs. Anderson have been spending a few days in Vancouver.

G. Hoghen has returned to Vancouver after spending a few days at "Culzean."

Mrs. Kingsmill and Mr. West went to Galiano Island for the dance at the hall there.

Recent guests at Grandview Lodge were D. Godfrey of Victoria; C. Milne of Langley Landing; L. Turner of Vancouver and L. Hocking of Victoria.

Mr. Douglas Horth of Vancouver is staying with his brother-in-law

and sister, Mr. and Mrs. S. Roberts.

Mr. and Mrs. Adam Dickson and family have moved from Fourth Street to their new house on Third Street which has just been built for them.

BRUCE YOUNGEST PREMIER ATTENDING EMPIRE CONFERENCE

London, Oct. 18.—Political circles here already have dubbed Stanley Melbourne Bruce, Australia's youthful Prime Minister, the "baby of the Imperial Conference," which will open to-morrow.

Mr. Bruce is forty-two years old and is the youngest Premier in the Empire. His brief career has in-

cluded excursions in law, athletics, business and the profession of arms, as well as politics. Unlike some of his predecessors in the Australian premiership, Mr. Bruce is a native-born Australian. He was educated in England, however, at Cambridge University and the old graduates still recall how he helped row his "varsity" to victory against Oxford in 1904. Leaving school he took a brief fling at the English bar, but left that when the World war came to accept a captaincy and take part in the Gallipoli offensive, where he was twice wounded. That he was a thorough soldier is attested by the Military Cross and Croix de Guerre which he possesses.

Player Troubles Are Cleared Up In N.H.L.

Gordon Fraser and Art Gagne Traded by Detroit to Chicago for Art Duncan, Who Will Likely Manage Club; Bill and Bunny Cook, Purchased by Ottawa, Are Awarded to New York; Russell Oatman Must Reimburse Montreal for Money Advanced; Goes to Detroit

Toronto, Oct. 18.—After a lengthy session that started in the morning and ran well on towards midnight the governors of the National Hockey League emerged from the conference here on Saturday night in a much more peaceful mood than has prevailed in N.H.L. circles for some time, and indications are that, with the exception of a few possible little squalls, the professional league will find smooth sailing during its first season as a ten-club circuit. The ownership of a dozen players was determined and other matters discussed fully.

The Cook brothers, Bill and "Bunny," were awarded to the New York Rangers, and the club will reimburse the Saskatoon club of the former Western League for the players. Both clubs were considered in the wrong; in the case of New York, Saskatoon, and Ottawa for buying the contracts from Saskatoon after knowing that New York had signed the players. It was shown that when they signed with New York the Cook boys were bound by a left-over contract with Saskatoon. The Ottawa club expressed a desire to make a deal with the Rangers after they had been awarded to the latter club by the almost unanimous vote of the governors, but New York refused to discuss a deal.

ALL DEPENDS ON CONTRACT

Player Hainesworth, formerly with Saskatoon, has signed a contract with the Canadiens but his contract has been purchased by St. Patricks. This player claims he is not under contract to produce a contract, Hainesworth will belong to St. Patricks, but if Saskatoon can not produce the paper, Canadiens will secure him. Leo Bourque, a forward, and Laurie Scott, a defenseman, were purchased from Saskatoon by St. Patricks and the deal was ratified.

Russell Oatman is another player whose case is similar to that of the Cooks, Detroit having bought his contract from Victoria while the player has signed with Montreal. Maroons Oatman was awarded to the Detroit club and the player will have to reimburse Montreal for any money advanced to him.

FRASER GOES TO CHICAGO

Arthur Duncan, who was signed by Detroit as manager and awarded to Chicago, will be with Detroit, but the latter club have sent Gagne and Fraser to Chicago in the deal. Player Sparrow will go to Detroit and Dutton to Montreal.

Owing to change of dates with one of the clubs, the schedule will have to be re-drafted, but will be released in the near future. The special committee appointed to take up the matter of affiliation of the minor leagues presented a report which was adopted, and as a result the Central Hockey Association, the Canadian professional league, the prairie league and the Canadian-American are now affiliated with the N.H.L. There will be draft clause in operation this season, but it will come into action next year.

The player limit will be fifteen this season and not more than twelve players can dress for a game.

BABE DYE SOLD

Charles Querrie, of St. Patricks, found time during the meeting to reduce the Irishman's roster by four players. Cecil "Babe" Dye was sold to the Chicago club, and as a result the Chicago club is understood to have secured a good sum for the sharpshooter.

In addition, waivers were secured on Mike Nevill, Dutton and Norman Shaw. These players will go to Percy Thompson's club in the Canadian pro league.

Coast League Has Shut-down Again

Los Angeles, Oct. 18.—Eight teams of the Pacific Coast League yesterday brought their 1926 baseball season to a close. To-day players were disbanding until the going rings next year for the start of another campaign. A few players are booked for the majors.

Assured of his seventh pennant victory three weeks ago, the ringing down of the curtain found the Los Angeles club leading its nearest rival, Oakland, by a margin of some eleven games.

College, Brentwood And University Win Intermediate Games

Ruggers Get Away to Good Start on Saturday; With Good Crowds Attending

Students Show Way in Their Games; High Wind Bothered Teams Considerably

School teams were victorious in the Intermediate League rugby fixtures on Saturday on all occasions. Victoria College beat the Normal School five to four, the University School won over Cowichan by six to one, and Brentwood College registered a 11-3 win at their own grounds against the newly organized Ex-High School men, who played a man short throughout. The fourth game scheduled between Wanderers and 16th Canadian Scottish was cancelled.

"Victoria College and Normal School met at the Victoria High School grounds before a crowd of nearly 400. By better work in the forward line and by the plunging tactics of men in the backfield, the College smashed the Cowichan line and won.

McMearns was the first man to go over. After a three-quarter run he leapt for the corner of the field and beat the Normal School. Cowichan's twenty-five, although their hefty forwards broke away with the ball for fifteen and twenty-yard gains. The effective tackling of University prevented the visitors from getting far. Wenman, taking a free kick, made the first score, putting the platoon over the bar. Shortly after Cotterall went over the line for the final points from a pass from Tye.

The teams were as follows: University—Miller; Wenman, Cotton, Gardiner and Cotterall; Holt and Tye; Bernard, McLeod, Beag, Clarke, Schmidt, Dyer and Parker; Miller, Brockbank, Roome and Miller; Parker and Roome; Fox, Grassie, Patterson, Didd, Miller, Hope, May and Taylor.

The game between Brentwood College and the ex-High teams, found the former team the stronger. The score was 11-3. Brentwood had the best of the game, but their opponents played well, with but four-teen men.

Winnipeg Boy Good
Calgary, Oct. 18.—The prize ring in Alberta has known many a great fighter, but it is doubtful if a more promising one than Angus "Ted" Snider, Winnipeg, light heavyweight, has ever performed here.

Snider, engaged in the first of a series of bouts that have been booked for him in this province, at Vulcan, Saturday, and his powerful wallop put Baden Whitesides, of Penhold, away for the count in the third round of a scheduled 10-round bout.

The Winnipeg youth, who won the Pan-American championship at Boston a year ago, was given a great ovation.

Burnley Regarded One of Outstanding Elevens In Soccer

Victory Over Blackburn Follows Close on Dethronement of Sunderland

Fifty-five Thousand Fans See Everton Lose Eighth Game of Season

London, Oct. 19 (Canadian Press Cable).—Two goals by Page, added to three others distributed among the remainder of the Burnley forward line, enabled the Lancastrians to retain leadership of the First Division of the English soccer league on Saturday when they traveled to Blackburn and administered a 3-1 defeat on the home club. Coming on top of their midweek win when they dethroned Sunderland from the seat which the Durham club had occupied for a brief space, the resolute Burnley were as one of the outstanding teams this season. Only twice have they been defeated in their twelve starts, once by Manchester United and the other time by Sunderland. Thirty-five thousand fans saw the game.

The Metropolitan area had a football carnival on Saturday when the age-old rivals, West Ham, traveled to Highbury and mixed it strenuously with Arsenal. The Hammers did well, holding Arsenal to a two-all tie.

SPURS MOVE UP
At White Hart Lane, Tottenham Hotspur were also engaged in a rough and tumble with Sheffield United in which the Blades yielded three goals to the Spurs. The latter team won the United's fourth defeat since September 18. The victory placed Tottenham fourth in the standings.

Fifty-five thousand spectators at Everton saw the home club chalk up their eighth defeat of the season, following a run of three drawn games, when Newcastle United invaded Lancashire from the Tyne-side and won with a 3-1 victory to their credit.

BIRMINGHAM IMPROVES
Following a series of two defeats, Birmingham restored confidence in themselves on Saturday when 25,000 supporters saw them defeat Derby County by the smallest margin.

The hat trick was performed at Leicester when Carr secured all of the home team's counters against Leeds United.

RUTH SHOWS OFF AT MONTREAL AND GAME IS STOPPED

Montreal, Oct. 18.—Babe Ruth, the king of sport, stopped a perfect ball game here yesterday, when, knocking thirty-six balls out of the grounds, he forced the game to be called shortly after the start of the ninth inning on account of there being no more spheres. Ruth enjoyed a Roman holiday to the delight of 3,000 fans, who braved a chilling wind to see the home king play.

Ruth's exhibition included two home runs, the first coming in the sixth inning to tie the score at 3-3 for his side, and being made off by Shocker, the second made off by Paddy Galkin, who has been signed for a tryout with the Chicago Red Sox next year.

The majority of the balls were lost when the Babe hit the ball in addition to playing at shortstop and first base. Ruth pitched three innings and did not allow a run or hit. He also umpired for an inning.

Five Records Fall At Intercollegiate Meet at Saskatoon

Saskatoon, Oct. 18.—For the seventh time in as many years the University of Manitoba holds the championship honors of the Western Canada intercollegiate track and field meet. Facing the stiffest opposition since the inauguration of the college carnival six years ago the Manitobans had to fight every inch of the way to be returned winners by a margin of eleven points over Alberta. Manitoba scored sixty-four points during Saturday's programme while Alberta collected fifty-three. Saskatchewan mustered twenty-one points while Motley accounted for all six gathered by British Columbia.

In spite of the fact that the weather was staged in miserable weather with a cruel northeast wind, adding to the discomfort of both athletes and spectators, five new intercollegiate records were established.

"Pete" Worthenbach, of Hoosier, Sask., carried the colors of the University of Alberta through to the individual championship. Worthenbach gained in sixteen points Saturday to nose out a teammate, Aubrey Bright, by a single point. While a student of the University of Saskatchewan three years ago Worthenbach captured the individual crown.

SUZANNE WINS AGAIN
Boston, Oct. 18.—Susanne Lenglen, French tennis star, defeated Miss Mary K. Brown, 6-2, 6-1, before a crowd of 8,000 in the Boston Arena last night. In the men's match, Vincent Richards disposed of Harvey Spodgrass, 6-2, 6-2.

Suggestions To Help City Eleven Advanced By P.C.F.L.

At a meeting of the Pacific Coast Football League held here on Saturday several suggestions were advanced as to the best way to increase support here for the Victoria City eleven.

Owing to the fact that the local team will only have one match here a month it was suggested that the date be kept open for the game. It was thought that James Island could be at home to a club on the date that the City eleven is appearing here and that Esquimalt could entertain their opponents at the Canteen grounds.

Last Saturday when St. Andrew's played here against Victoria a counter-attraction was staged within a stone's throw at the Central Park, where no gate was charged.

Another suggestion in regard to players was that, while none of the First Division clubs would be asked to release any of their regular players, it was thought that these clubs might place at the disposal of the City eleven any of their reserves. This would ensure the City of being able to play games away from home.

The Victoria City will play in Ladysmith next Sunday.

Queens Beaten By Varsity For First Time In Five Years

Former Champs Well Handled By Toronto; 8,000 in Snake Dance After Game

Ottawa Beats Argos and Balmy Beach Halt Camp Borden Squad

Favored by excellent weather, record crowds turned out in Ontario and Quebec Saturday for the rugby fixtures and were treated to excellent games.

In the feature game University of Toronto downed the mighty Queens at Varsity stadium, 11 to 3. There was no doubt as to Varsity's superiority. They ripped the visitors' line to shreds and bottled up Batstone so that he was not so effective as usual, got good distance on their own kicks and had their wings down under extra time. It was the first time that Varsity had won from Queens at Toronto since 1921. Varsity went wild after the victory. Fifteen thousand people witnessed the spectacle and fully 8,000 joined in the snake dance along the field after the game.

Other games: Two touchdowns by Connell, one of which he converted, and five single points, from Tubman's boot gave Ottawa Senators a 16 to 2 win over Toronto Argonauts. Argos' points came in the opening period with the wind behind them. Two minutes after the second quarter started Connell secured his first touchdown after a twenty-yard run and the Ottawa total was gradually added to from then on. Seven thou-

sand, five hundred fans saw the game.

At Hamilton: Hamilton Tigers played brilliantly to eliminate Montreal from the inter-provincial race by a score of 17 to 6. The Hamilton squad went into the lead in the first quarter and had it all their own way during the first half. Montreal made the best effort in the third quarter. Tigers scored two of the three tries in the game.

BORDENS DEFEATED
At Toronto: In a game featured by spectacular tackling, sensational broken-field running and beautiful punting, Balmy Beach inflicted upon Camp Borden their first defeat of the Ontario Senior Rugby football series. The score was 13 to 3. Seven of the winners' points were secured by rouges and kicks to the deadline, while a touchdown and safety touch made up the remainder. Camp Borden scored on two kicks to deadline and a rouge.

At Montreal: McGill defeated Hamilton O.R.F.U. squad in an exhibition game, 22 to 2. It was a lively affair with the college team having a decided advantage throughout.

Port Arthur, Ont., Oct. 18.—Lorne Chabot, goalkeeper of the Port Arthur hockey team, has decided not to sign a contract to play professional hockey with the New York Rangers' management.

Nanaimo's Decisive Win Over Davenports
Nanaimo, Oct. 18.—Nanaimo City defeated Nanaimo Davenports yesterday in a Pacific Coast League fixture by seven goals to nil, four in the first half and three in the second. Every forward of the Nanaimo City team scored, Sandiland scoring the two extra ones in the last few minutes of play.

Foulis Leads At End of First Half Of Cup Competition

Record Number of Players Tee Off in Quest of Uplands Trophy

R. Morrison Has Best Gross Score; Second Half of Match Next Week-end

With a net score of 132 R. Foulis led the field at the halfway mark in the competition for the Uplands Cup at the Uplands Golf Club. He was two strokes better than Frank Jeffrey.

R. Morrison, one of the younger members of the club, turned in the best gross score of the day when he negotiated the thirty-six holes in 158. His handicap of 20 left him with a net score of 138. He was tied with G. G. Pease for fourth place with 138. The Uplands Cup, one of the most popular competitions at the Uplands Club, attracted a record number of entries. The match consists of seventy-two holes of medal play, with full handicaps allowed. The second thirty-six holes will be played next Sunday and the player with the lowest net score will be awarded the cup.

THIRTY-TWO QUALIFY
The thirty-two lowest scores yesterday qualified for the final thirty-six holes next week.

The scores of those who qualified were as follows:

	Gross	Hcp.	Net
R. Foulis	164	32	132

Scoring the odd goal in seven, James Island made the league leaders knuckle under at Central Park. The Islanders had the better of the first half when the wind was at their backs, and they scored two goals to their opponents' one. After the interval the teams registered twice each.

Esquimalt hung up the first goal when Coulter beat Rogers with a fast drive twenty minutes after the start.

Saville, at outside left for James Island, evened the count soon after when he planted the leather behind the goalposts, but the Islanders in the lead near the end of

At last!

a real cold weather gasoline

It is no trick to make a gasoline that will start quickly. But to make such a gasoline without sacrifice of power and mileage, has long been a problem that has baffled the best brains in the oil industry.

The discovery of Ethyl Brand of Anti-Knock Compound--after 7 years' research in the General Motors Laboratories--has enabled us to solve the problem.

We produced a very special grade of quick-starting gasoline. We added this Ethyl ingredient. We thus achieved a gasoline that, while "light" enough to explode the moment the spark jumps, gives more power and longer mileage than any winter gasoline heretofore made or sold in Canada. And in addition, it makes your motor absolutely knockless. 4 cents more per gallon--but emphatically worth it.

Fill with Imperial Ethyl. In the first mile it will show its superior acceleration. On the first hill it will reveal its truly remarkable climbing performance. On the first cold morning it will prove its readiness in starting.

You will come to it some day soon--why continue to miss the driving thrills, the real motoring satisfaction, you can get by filling with Imperial Ethyl.

IMPERIAL OIL LIMITED

IMPERIAL ETHYL

A SERIAL STORY

"The Unwilling Adventuress"

By MILDRED BARBOUR

"You don't care about it?"

"No," she confessed, lifting guileless eyes. "I always wanted to marry a nice man and have a nice home and the recollection of her frequently expressed ambition."

Something in his stony silence brought her to earth. She broke off hastily and devoted herself to fillet of sole.

"He thinks I grabbed his son," she thought resentfully. "If he only knew!" And suddenly she giggled.

The wrathful glance her supposed husband sent her from his end of the table, warned her that this was not the right cue for mirth. But it only made her laugh more and lifting her pretty eyes, she looked her "father-in-law" squarely in the face and continued to laugh over this private joke.

It almost routed Hartley, Sr. He realized that she didn't fear him; she didn't even bother to censure him. She was thoroughly enjoying herself, and she didn't care what he thought.

After luncheon, the Cushings retired to the suite upstairs for the night. Hartley, Sr., joined them and the two young people were delegated to a brief sight-seeing tour in a taxi for Doris's benefit.

Young Hartley looked as though he would sooner have gone to the guillotine, but his gloomy silence failed to disconcert Doris. And that very fact made him bolder in his attitude against her. While his father was questioning her, he had known a pang or two of pity for her, but the way she had come through the ordeal, and had indeed not even considered it an ordeal, was slightly irritating.

But he piloted her stolidly around Paris to see sights that were as familiar to him as his New York. In the course of a few hours, Doris saw the Arch de Triomphe, the Tomb of the Unknown Soldier, the Madeleine, and a glimpse of the Bois de Boulogne. She had got a crick in her neck staring up at the slender, transparent structure of the Eiffel Tower.

At five o'clock, she saw all the world pass in front of the Cafe de la Paix, where Hartley ran across several acquaintances. On their way back to the Ritz to rejoin his family, he took in a bit of the Rue de la Paix, that is artfully calculated to draw the very hearts out of women with its alluring sartorial displays.

Doris stopped for several minutes, entranced by a window of feminine vanities. There were hose of ravishing sheerness, lace and coquettish fans, vanity cases jeweled eaters, and a host of other trifles, a sort of souvenir of your first visit to Paris.

"Do they cost more than three dollars and ten cents?" inquired Doris practically, feeling her slim purse.

He flushed and made an instinctive gesture toward his pocket.

"I say, I'd completely forgotten."

You see how unaccustomed I am to being married. You should have told me, so that I could see that you're always provided with funds."

"From you!" said Doris clearly. "No thanks!" and she laughed.

"That laugh cut him like a lash. He hated her more than ever!"

CHAPTER XXVII

Doris and Hartley's aunt shared a compartment on the trip to the Riviera. In spite of the best efforts of the indefatigable Meekins, reservations were at a premium and the men of the party were forced to parcel themselves out somehow.

Doris opened her eyes to brilliant sunshine, an unbelievably blue sky, brilliantly colored flowers, and the faint whisper of the sea. A white beach. It had rained frequently and without warning all through the previous day in Paris and she had shivered in her light wrap. The contrast was delightful.

A comical limousine brought their little party swiftly to a rambling villa screened from the street by a high wall over which flowering vines tumbled in profusion. Within was a garden which brought an exclamation of delight from Doris. The air was warm and perfumed with the scent of mimosa. Through the trees, was a broad expanse of sea, marvelously blue and tranquil, and dotted here and there with gleaming yachts like slim white birds, rode at anchor on the gently swelling tide.

When the bustle of arrival was over and the luggage had been spirited away by deft hands, Doris found herself in a lovely spacious room overlooking the sea, with wide French windows opening on a balcony which, in turn, overhung the garden.

"Breakfast will be served in the garden directly you are ready, Madame," a trim maid in cap and apron informed her. "If you prefer to rest, I will order a tray."

"Yes," said Doris, and then, after a hasty second glance at the room, "I'm not tired. I will breakfast in the garden."

"Then I will prepare a bath immediately for Madame."

Doris said: "Yes," mechanically. She was staring around the room with a doubtful eye.

It was a room meant for two.

Her last fear was realized when she stepped to the doorway of a second room—a combination boudoir and dressing-room, and discovered young Hartley's luggage reposing in the center of the floor.

She went to a window and looked down into the garden. Young Hartley, still in traveling attire, was romping with a terrier.

Then the maid called Doris and she went away to have a luxurious and refreshing tub in a bath fit for an empress. She had just completed her toilet with a charming, little, goresette morning frock from the troussaint intended for Camilla, and was adding the last touch of powder to her nose, when the door to the bedroom opened without warning and she beheld in the mirror the astounded visage of young Hartley.

"I beg your pardon," he stammered.

"I shall keep my eyes open to see," said the bunny gentleman. "As soon

as I come back from adventuring I will find out who took your thimble and Nurse Jane's scissors."

Go Mr. Longears hopped over the fields and through the woods, looking here and there for adventures, but none could he find.

"I think I will lie down on this soft log and go to sleep," said the rabbit when he had grown tired of trying to find something to happen, which, after all, is an adventure. "When I awaken, well, we shall see what happens," and he laughed merrily. "For he knew if he did not find an adventure at one time he would at another."

The log was soft because it had on it a covering of green moss, and

when the rabbit gentleman stretched out he felt as comfortable as if he were in his bed at the bungalow. Soon he was asleep.

All of a sudden he was awakened by feeling someone tugging at his watch chain and, thinking it was Mrs. Longears, of whom he was dreaming, he said:

"I'll get up directly, my dear! Is breakfast ready?"

Then, when he opened his eyes, and looked at the trees all about him—trees whereon the leaves were turning with the frost—the bunny remembered he had been asleep, and, laughing, said:

"It was all a dream!"

But when he looked down where

his watch chain should have dangled, and did not see it, and when he felt in his pocket and found no watch, Uncle Wiggily exclaimed:

"Why the same little fairy must be here who took Nurse Jane's scissors and my wife's thimble. Oh, ho! I shall catch you, little fairy! Bring back my watch, if you please! Bring back the thimble and scissors!"

Uncle Wiggily looked around, but saw no one, though high up in the air a voice seemed to laugh:

"Haw! Haw! Haw!"

Then the bunny looked up in a tree and saw a high nest and on the edge of this nest sat a black crow. And it was the black crow bird who was calling "Caw! Caw! Caw!" which

sounded like a laugh. From the black crow's beak dangled Uncle Wiggily's watch and chain.

"Why, the idea!" exclaimed the rabbit in surprise. "Why did you take my watch and chain?"

"Oh, excuse me!" cawed the crow. "I saw that you were asleep and I thought that you would have no use for a watch. You can't tell time when you are asleep. So I took it!"

"Haw! Haw!" laughed Uncle Wiggily. "That's so funny! I guess you didn't think I would wake up, did you? And how about my wife's thimble and Nurse Jane's scissors? Did you take them?"

"Yes," cawed the black bird. "They are in my high nest. You know it is

hard for a crow, like myself, to keep from picking up bright things. But I will bring back your watch—and the thimble and scissors, and I'll not take any more things unless you give them to me."

Then the bird flew down, bringing back the bright things, and all was well. But Mrs. Longears was a bit sorry there was no little fairy. And if the teapot doesn't try to catch the goldfish in the coffee strainer, I'll tell you next about Uncle Wiggily and the Bob Cat's bow.

JACKET SUIT

The black velvet jacket suit is often collared and cuffed with ermine, sable, or summer ermine.

LABOR INJUNCTION REFUSED

Washington, Oct. 18.—Declaring labor unions have a right to obtain for their members higher wages and shorter hours, the District of Columbia Supreme Court has denied an injunction against the Brotherhood of Painters and Paper Hangers of America sought by the Barker Painting Company of New York.

The company charged conspiracy by the painters when it was unable to obtain local painters to work on the Mayflower Hotel at the New York scale. The painters demanded \$10.50 per day and a five day week, instead of \$9 per day and a five and a half day week.

BEDTIME STORY

Uncle Wiggily and the High Nest

Copyright, 1926, by McClure Newspaper Syndicate

By HOWARD R. GARIS

"There must be a busy little fairy who loves to sew, somewhere around my hollow stump bungalow," said Mrs. Longears, the rabbit lady, one day.

"Why do you think so?" asked Uncle Wiggily, who, having given his pink nose a twinkle, was ready to go adventuring. "What has the sewing fairy done?"

"Taken my thimble, for one thing," answered the bunny gentleman's wife. "I laid it here on the sill of the open

window while I went to get Scrimble and Scrimble, a piece of carrot pie, and when I came back it was gone!"

"Do you mean the pie was gone?" asked Uncle Wiggily, twinkling his eyes instead of his nose. "That isn't surprising, with Scrimble and Scrimble home from school."

"No, I mean my thimble was gone!" said Mrs. Longears. "And Nurse Jane said this morning that she laid her scissors on the back steps a moment while she went in to give the dishes their bath, and when she came out her scissors were gone. A little fairy must be taking things."

"I wonder who it is?"

"I shall keep my eyes open to see," said the bunny gentleman. "As soon

as I come back from adventuring I will find out who took your thimble and Nurse Jane's scissors."

Go Mr. Longears hopped over the fields and through the woods, looking here and there for adventures, but none could he find.

"I think I will lie down on this soft log and go to sleep," said the rabbit when he had grown tired of trying to find something to happen, which, after all, is an adventure. "When I awaken, well, we shall see what happens," and he laughed merrily. "For he knew if he did not find an adventure at one time he would at another."

The log was soft because it had on it a covering of green moss, and

when the rabbit gentleman stretched out he felt as comfortable as if he were in his bed at the bungalow. Soon he was asleep.

All of a sudden he was awakened by feeling someone tugging at his watch chain and, thinking it was Mrs. Longears, of whom he was dreaming, he said:

"I'll get up directly, my dear! Is breakfast ready?"

Then, when he opened his eyes, and looked at the trees all about him—trees whereon the leaves were turning with the frost—the bunny remembered he had been asleep, and, laughing, said:

"It was all a dream!"

But when he looked down where

his watch chain should have dangled, and did not see it, and when he felt in his pocket and found no watch, Uncle Wiggily exclaimed:

"Why the same little fairy must be here who took Nurse Jane's scissors and my wife's thimble. Oh, ho! I shall catch you, little fairy! Bring back my watch, if you please! Bring back the thimble and scissors!"

Uncle Wiggily looked around, but saw no one, though high up in the air a voice seemed to laugh:

"Haw! Haw! Haw!"

Then the bunny looked up in a tree and saw a high nest and on the edge of this nest sat a black crow. And it was the black crow bird who was calling "Caw! Caw! Caw!" which

TO-MORROW'S HOROSCOPE

"The Stars Incline, But Do Not Compel"

(Copyright)

TUESDAY, OCTOBER 19, 1926

Venus and Jupiter in benefic aspect rule to-day, according to astrology. The Sun, Saturn and Uranus are adverse.

Women in business or the professions should benefit from this positioning of the stars, making progress in peace and foresight.

This is read as a happy wedding day in which love comes laden with wealth or at least plenty. Again, theatres and other places of amusement come under a favorable planetary direction. Actors and actresses may expect severe criticism, however.

All the signs appear to promise for America an excessive demand for perfection in all the arts. Much competition is forecast for would-be geniuses.

Farmers late this month may meet with disappointments, owing to unfavorable weather conditions in various parts of the country.

Labor to-day may be disturbed over various issues; strikes will be

WATER NOTICE

Diversion and Use

TAKE NOTICE that Cecelia Blanche Rey and Alexis Xavier Rey, whose address is care of C. H. O'Halloran, Solicitor, 509-510 Central Building, Victoria, British Columbia, will apply to the court for an order for a license to take and use one hundred and twenty-acre feet per annum for domestic and irrigation purposes, of water from the unnamed spring which flows in a north-easterly direction and drains into the McHugh ditch, which flows in a southerly direction through the easterly portion of the lands hereinafter described. The water will be diverted from the stream at point A, about fifty (50) feet from the source of the spring; point B, about seventy-five (75) feet from the source of the spring; point C, about one hundred (100) feet from the source of the spring; point D, about two hundred (200) feet from the source of the spring; point E, about one hundred (100) feet from the source of the spring; point F, about one hundred (100) feet from the source of the spring; ISLAND DELEGATES BACK FROM PARLEY

School Trustees' Convention at Vernon Was Success

Trustees H. O. Litchfield and F. V. Hobbs Favored by Office

Victoria and Island delegates to the convention of B.C. School Trus-

Clear The Pores Of Impurities With Cuticura Soap

tees, held at Vernon recently, returned to their homes on Saturday, after a successful gathering. Trustee H. O. Litchfield, Victoria, who was elected chairman of the resolutions committee, was enthusiastic over the success of the convention discussions, and believes much good will come from the pooling of ideas on the various subjects taken up.

Trustee F. V. Hobbs, Saanich, was appointed to the executive committee of the association, for valued experience in connection with rural schools. Hamilton Lang, Vernon, presided at the convention. Delegates attended from all parts of British Columbia and were treated royally by the Vernon school authorities.

An important phase of the work was discussion of the sub-normal child, and papers given on the growth of modern methods of treating backward children proved of great interest, stated Mr. Litchfield.

SNOW IN WISCONSIN

Superior, Wis., Oct. 18.—Snow which followed an overnight rain, covered Superior and its vicinity with a white mantle Sunday. It was the first snow of the season here.

"His Soul an Offering For Sin"

Sermon Preached by Rev. J. S. Patterson at St. Paul's Presbyterian Church, Sunday, October 17

"Behold the Lamb of God which taketh away the sin of the world." John 1:29.

When one reads the declaration of John the Baptist that the Messiah was to be the Lamb of God that would take away the sin of the world, he is introduced immediately to Isaiah, chapter liii, and also to the great sacrificial system. It is absolutely necessary to understand that background in order to understand something of the meaning of Calvary.

The Jewish sacrificial system was very elaborate. I have not time to deal with it at length, but perhaps you will allow me to give you a few thoughts by the way.

The Jewish offerings may be divided into two: the sweet savor offerings and the non-sweet savor offerings.

We are presented with first the burnt offering. This, we believe typified Christ offering Himself without spot to God the Father, for us. We read, the Lord called unto Moses saying, "Speak unto the children of Israel thus: 'If any man of you bring an offering unto the Lord, ye shall bring your offering of the cattle or herd. If his offering be a burnt sacrifice let him offer a male without blemish, he shall offer it of his own voluntary will.' What did this mean? It meant that sin was a terrible thing. Mankind was a long way past the theoretical or philosophical stage in dealing with sin, they had reached the realm of the practical and the experimental. Sin was real to the poor prodigal in his degradation. It is real to the poor criminal and it was real to the poor tormented sinner whose troubled conscience smote him as he listened to the voice of God through His servant Moses. A sacrificial way of dealing with sin had been found, but this in type and shadow only pointed to the true and the living way—the way of Isaiah liii and the way of Calvary's Cross.

Each offender brought his offering or sacrifice to the door of the tabernacle of the congregation, to present the same before God, in God's specified way. It must be without blemish and it must be a voluntary sacrificial offering. He shall put his hand on the head of the burnt offering and it shall be accepted for him to make an atonement.

The hand laid on signified identification and acceptance. He shall kill the bullock and the blood must be sprinkled round about the altar. Animals know no sin, but responsible man knows that he is a sinner and thus stands condemned with his hand on the head of his sin-bearer. His condemnation passes over and the blood flows. The life is in the blood and without the shedding of blood there is no remission of sins. The burnt offering typified Christ offering Himself without spot to God in delight to do His Father's will. It is atoning because the poor believer has not hitherto made a delight in the will of God. It is substitutionary because the Lord Christ gave Himself for us, the just for the unjust. This is not only a voluntary freewill offering but it is a sacrifice and a burnt offering. The priest shall wash the inward and the legs with water and shall bring it and burn it upon the altar. It is an offering made by fire of a sweet savor unto the Lord. Fire is a symbol of God's holiness expressing God in three ways. First, holiness; second, judgment; and third, in the manifestation of Himself and of that which He approves; third, in purification, because the fire wholly consumed the sin-offering.

We are next introduced to the meat-offering. This we believe signifies Christ in His human perfection tested by suffering. "When any will offer a meat offering unto the Lord, his offering shall be of fine flour and he shall pour oil upon it and put frankincense thereon." The fine flour speaks of the evenness and balance of the character of the Lord Christ. It speaks of that perfection in which no quality was in excess and in which no essential quality was lacking. "The fire" speaks of His testing by suffering, even unto death, yea, the death of the Cross. "Frankincense" speaks of the fragrance of His life Godward. "The oil" mingled speaks of the spiritual life. Christ was born of the Spirit of God. "The oil upon" speaks of His Baptism by the Holy Ghost. "The oven" refers to the unseen, inward sufferings of the Christ, in other words, the inner agonies. "The pass" refers to the more evident sufferings. "The salt" tells loudly of the pungency of the truth of God. "With all these offerings thou shalt offer salt." And now comes the "peace offering." This, we believe, represents Christ, our Peace, "a sacrifice of peace offering, whether it be male or female, he shall offer it without blemish." The presentation of all these offerings was much the same with a few variations.

The "peace offering" represented the whole work of Christ in relation to the believer's peace. Christ made Peace; Christ proclaimed Peace and Christ is our Peace. In Christ, God and the sinner meet in peace. God is propitiated and the sinner reconciled, and all this at the cost of Blood, Sacrifice and Fire. Certain parts are consumed and certain parts are eaten—the detail that describes what parts are really consumed by fire and what parts of the sacrifice are retained for food and nourishment speaks to us of the priesthood of all believers and of our common fellowship through Christ with God the Father.

Note, that in his holy partnership we partake of the bread, speaking of affection, and we partake of the shoulders, that signify strength. This is what makes the peace offering a love feast and also a thank offering. What a flood of thought comes to one when we think of the thank-offering. Wise men came from the East and opened their treasures and presented unto Christ their gifts. When Christ Himself ascended on high He led captivity captive and gave gifts unto men. The Apostle tells us to desire earnestly these spiritual gifts, and all this because God gave us His Son.

Now we come to the non-sweet savor offerings. The first of these two is called the sin-offering. Here Christ atones for the guilt of sin, and that is the aspect that is prominent

in the sin-offering. The Lord spoke unto Moses: "If a soul shall sin through ignorance against any of the commandments of the Lord, let him bring for his sin a young bullock without blemish." Here we have the recognition of sin—the recognition of God and of the laws of God and of the way of salvation.

The sweet smelling offerings were consumed in part and eaten in part, but the sin-offerings must be wholly consumed by fire without the camp. Not that the camp is a holy place and the sin-offering unholy, but rather the reverse. The camp was unholy and the sacrifice holy. We must go to Him without the camp, bearing His reproach and enter into the fellowship of His suffering. The sin-offering in the very last analysis is Christ—"who could it be but Jesus." It is Christ seen laden with the leaver's sin. He took your place and mine. The sin offerings are expiatory, efficacious, substitutional and have in view the vindication of God's holy law.

The last of the offerings was the trespass offering, also a sin-offering with this difference. Christ is here seen atoning for the injury of sin. This was also a non-sweet savor offering. This covered the injury of sin rather than its guilt; nevertheless all our trespasses against others are really and truly against God. In agony the Psalmist said: "Against Thee, O Lord, have I sinned," addressing God, even while he was conscious of murder and adultery. Paul found that in persecuting the church, he was persecuting the Christ, but he said he did it ignorantly and through Christ's obtaining mercy.

The prophet Nathan brought home to David his sin and wronged out of him this confession: "I have sinned against the Lord. The prophet assured him after the confession that the Lord also had put away his sin, and there was 'only one way'—the true and the living. This way is still open for sin and uncleanness.

The different animals presented in sacrifice presented different ideas: (a) The bullock or ox typified Christ as the patient enduring servant—obedient unto death. (b) The sheep or lamb typified Christ in unrelenting self-surrender—the Lamb of God. (c) The goat typified the sinner primarily, but also as a substitute, Christ, who was numbered with the transgressors. (d) The turtle-dove or pigeon, naturally a symbol of mourning and poverty, is associated with poverty and speaks of Jesus who "for our sakes became poor that we through His poverty might become rich."

To understand the cross of Calvary, one must understand these offerings in their own place. Jesus, the whole or the one offering is equal to all parts, and all the parts are needed to understand the whole. It is nevertheless still true that

"Not all the blood of bulls on Jewish altars slain. Could a guilty conscience peace nor wash away the stain. But Christ the Lamb of God bears all our sins away."

This same Jesus that John proclaimed to be the Lamb of God was the Lamb slain by the foundation of the world. He is the Lamb who is all the glory in Emmanuel's land. No wonder General Booth exclaimed in rapture:

"I know my sins are all forgiven, Glory to the bleeding Lamb! And I am on my way to Heaven, Glory to the bleeding Lamb! The Lamb! the Lamb! the bleeding Lamb! I love the sound of Jesus' name, It sets my spirit all in a flame, Glory to the bleeding Lamb!"

CONGREGATION TOLD OF BIG CONFERENCE

Dr. Sipprell Back From East; Provincial Conference Plans

Rev. Dr. Sipprell occupied his pulpit yesterday after an absence of a month attending the meeting of the Board of Foreign Missions of the United Church of Canada, followed by a great conference on Dominion and World Service held in Massey Hall, Toronto.

Dr. Sipprell was greeted by large and interested congregations morning and evening, glad to extend a welcome to their pastor after weeks of absence. At the morning service Dr. Sipprell told the congregation of the object and aims of this conference which are the arousing of the members and adherents of the church to a larger interest and a greater activity in the spiritual and moral issues of life. This conference is but the first of a series of such gatherings to be held across Canada, the conference for this Province to be held in Vancouver in November.

It is expected that several representative men from the East will be present to attend this conference, among whom will be Dr. James Harvey of Edinburgh, Ex-Moderator of the Free Church of Scotland, Dr. Robert Laird of Toronto, treasurer of the United Church of Canada, Dr. Armstrong of China, Dr. Tucker of Africa, Mr. G. A. Warburton of Toronto and others.

3,000 AT CONFERENCE

The conference in Toronto was attended by 1,500 ministers from Ontario and Quebec, whose entire expenses were met by laymen who became responsible for this amount. It is estimated that more than that number of laymen were present at their own expense. A similar arrangement is to be made for the Vancouver conference. Provision is to be made for the attendance of every minister in the whole Conference of British Columbia, and it is expected that a large representation of the lay-

HUDSON-ESSEX

MEDAL FOR BOY

Ottawa, Oct. 18.—Scout Lyle Patterson of the Second Drummeller

troop of Alberta has been recommended by a committee of the Canadian General Council Boy Scout Association for the award of the silver cross for bravery. Scout Patterson,

while unsuccessful in an attempt to save a chum from drowning while bathing in the Red Deer River, was cited for "gallantry in risking his life."

Send Something to the Solarium Superfluity Sale

REMEMBERING the great success of the war-time Superfluity Store, the Rotary Club of Victoria will hold a One-day Sale of Superfluities in aid of the Solarium for Crippled Children. This sale will be held on the afternoon and evening of Wednesday, October 20, at the store lately occupied by Gordon's Limited, Yates Street.

This is therefore an appeal to every citizen of Victoria to contribute something of a useful nature that can be turned into cash. In practically every home there are Superfluities—Discarded items of clothing, rugs, sporting goods, musical instruments, etc.—a hundred and one items which are by no means worn out but are simply no longer required by present owners.

To-day—in ten minutes—you can hunt up a Superfluity—something you haven't used for a long time—something it will be no sacrifice for you to give away—something that somebody else will find useful and be glad to buy.

To Merchants

In many stores there are surplus items of stock now occupying valuable space. Why not call them Superfluities and donate them to this worthy cause? Such contributions will be thankfully received.
